STATE OF NEW JERSEY

PHILIP D. MURPHY
GOVERNOR

**FISCAL 2025 BUDGET
OF
PHILIP D. MURPHY
GOVERNOR OF NEW JERSEY
TRANSMITTED TO THE FIRST ANNUAL SESSION
OF THE TWO HUNDRED TWENTY FIRST LEGISLATURE**

Mr. President, Mr. Speaker, and Members of the Legislature:

In accordance with the provisions of C.52:27B-20, I hereby present my budget recommendations for fiscal 2025.

This document provides a summary of my recommendations and outlines the key aspects of my overall financial plan for the governmental services to be provided by the State to the residents of New Jersey.

The budget detail, including information on specific line items of appropriations, will be transmitted separately to the Legislature.

Respectfully submitted,

PHILIP D. MURPHY
Governor of New Jersey

Attest:

Parimal Garg
Chief Counsel to the Governor
February 27, 2024

A Letter from Governor Philip D. Murphy

Dear Senate President Scutari, Assembly Speaker Coughlin, Members of the 221st Legislature, and the People of New Jersey:

I am honored to present my proposed budget for the 2025 Fiscal Year.

We have crafted this budget to support the working- and middle-class families of New Jersey who have led our state through challenging times. It is a budget that delivers on our promise to maintain fiscal responsibility—while also remaining true to our core values. It will make life more affordable for more families—by lowering costs and increasing opportunities for every community. And it will protect our fundamental rights and freedoms—from voting rights, to reproductive rights, to every right in between.

But most of all, this budget will ensure that New Jersey retains its proud reputation as the best State, anywhere, to raise a family.

For the third year in a row, this budget will provide more than \$2 billion in direct property tax relief to millions of New Jerseyans through the ANCHOR program, which is now officially the largest property tax relief program in our history. Under this program, nearly all homeowners, renters, and seniors are eligible for a benefit, which can provide as much as \$1,750 in direct relief.

Altogether, this budget will put more than \$3.5 billion back into the pockets of New Jersey's taxpayers through direct property tax relief, and will provide over \$700 million through programs like the Child Tax Credit, the Child and Dependent Care Tax Credit, and the Earned Income Tax Credit.

Moreover, this budget will increase funding for prescription drug assistance, school meals, and other commitments that will lower costs and make millions of our state's families and seniors feel more financially secure.

For parents with young children, our budget will bring New Jersey closer to free, universal pre-K with a more than \$1.2 billion investment. This will help working families save up to tens of thousands of dollars per year on child care—and help prepare more of our precious children for lifelong success.

In that same spirit, this budget will be the first, in our state's history, to fully fund the formula for New Jersey's public schools with a \$908 million funding increase. Altogether, the \$11.7 billion we have included in our budget for public education is the single-largest investment into New Jersey's K-12 schools in history. This also marks the completion of a seven-year phase-in process—as well as a major milestone in keeping our administration's promise to invest in the success of every student in every school district.

Importantly, this is not only an investment in the future of our students, but the future of our entire state. It is an investment in our educators, who are the backbone of New Jersey's best in the nation public education system. And it is an investment in our people and small businesses, who will save money on their property taxes with every additional dollar we invest into our public schools at the state level.

While we are making these historic investments into New Jersey's future, this budget is also sober-minded about our fiscal reality. New Jersey is prepared to face the fiscal challenges that all states are facing. Over the past several years, we have paid down our debts and increased our surpluses. We have balanced our books while also meeting our sacred obligations to our communities. We have made full payments into our pension system for three straight years—and this budget will make it a fourth. And we have saved money for any rainy days that lie ahead.

This budget will also continue our efforts to create opportunities for every community—by investing in education, housing, workforce development, small business growth, and more.

For instance, this budget will help us meet our commitment to ending veterans' homelessness in New Jersey. The Department of Community Affairs will set aside more than \$34 million over the next two years to accelerate these efforts.

This budget will ensure New Jersey retains its reputation as the world's home for innovation. It will help cement our leadership in industries like clean energy, fintech, filmmaking and television production, and generative artificial intelligence.

When it comes to taking action against climate change, this budget will provide \$40 million to modernize the electrical grid, drawing in federal matching funds so we can build a strong foundation for New Jersey's clean energy future.

We will continue improving our urban state parks by providing \$70 million more toward the development of Liberty State Park and the Garden State Greenway.

This budget will build upon our efforts, as well, to reform New Jersey's criminal justice system by nearly doubling funding for ARRIVE Together, an innovative program that pairs police officers with mental health professionals when responding to mental health crises.

Our budget will continue our work toward improving maternal and child health in New Jersey. FY2025 will be the first full year of the Universal Home Visiting program, in which new mothers can benefit from the care and advice of trained nurses. Additionally, new parents will be able to benefit from a new program that will cover delivery costs for online orders in the WIC program.

Crucially, this budget will take a significant step forward in delivering on my promise to fix NJ TRANSIT. The State's mass transit system was in crisis when we entered office. But over the past six years, through diligent work and partnership, we have addressed nearly all of NJ TRANSIT's operational challenges.

Now, with this budget, we will create a new, dedicated revenue stream to address NJ TRANSIT's fiscal challenges in the long-term: the Corporate Transit Fee. This fee applies only to the largest and most successful businesses, earning more than \$10 million in profits. It will ask these companies to contribute a small share of their profits to support the transit system that delivers their workers and customers to where they need to be, when they need to be there. Combined with the support already provided to the agency by the Turnpike Authority and the State budget, we are making—and will continue to make—marked progress in ensuring NJ TRANSIT can become the world-class transit system our state's workers and families deserve.

With this year's budget, our administration is once again putting the needs of New Jersey's families ahead of the demands of special interests. It will help millions of families feel more financially secure—and more confident about making their future in the Garden State. It will meet our commitments to our students, our educators, our workers, our parents, our seniors—and everyone who calls New Jersey home. It will make responsible investments into the foundation of New Jersey's economy—and support the growth of the industries of tomorrow, for years to come. And it will ensure New Jersey remains the best place, anywhere, to raise a family.

I look forward to working with you.

Sincerely,

Philip D. Murphy
Governor

Making New Jersey the Best Place to Raise a Family

Making New Jersey the Best Place to Raise a Family

Governor Murphy's Fiscal Year 2025 (FY2025) budget proposal maintains his sacred obligations to New Jersey's families while preparing the State to navigate local and global challenges. The Governor's budget continues to make transformational investments in property tax relief, pre-K through 12 education, expanding economic opportunities, and the State's fiscal health. The budget prioritizes making New Jersey more affordable and welcoming for our families and seniors, and thoughtfully invests in critical workforce needs and cultivates our economic future. It also builds upon the Governor's work to fix NJ TRANSIT by proposing a new dedicated revenue stream that will be funded by the largest corporate taxpayers.

This budget proposal is realistic about the State's capacity to spend within its means. Just like millions of working families, the State must tighten its belt in leaner times. This budget includes necessary spending reductions and significantly limits spending growth across almost all departments.

Focusing on Affordability: The budget proposal prioritizes making life in New Jersey more affordable for more families. This proposal includes direct assistance for residents of all ages, alongside full funding for the State's school funding formula for the first time. The Governor will also continue to invest in health care and prescription drug assistance and in making housing more affordable statewide.

- **Aid for Families:** Governor Murphy's budget funds a third year of ANCHOR, the largest property tax relief initiative in State history. In FY2025, the Administration expects to provide more than \$3.5 billion in direct property tax relief, compared to an annual average of \$998 million during the previous governor's entire term. Middle- and working-class families will continue to benefit from the Governor's work to expand the Earned Income Tax Credit, the Child Tax Credit, and the Child and Dependent Care Tax Credit since taking office.
- **Support for Seniors:** This budget proposal includes an additional \$200 million to pre-fund Stay NJ, which is designed to cut property tax bills in half for many New Jersey seniors beginning in 2026. Roughly 58,000 new households will also benefit in FY2025 from the recent expansion of the Senior Freeze program, which prevents participants' property taxes from growing. The budget also includes additional funding for the RetireReady NJ savings program, which was created by the New Jersey Secure Choice Savings Program Act. RetireReady will launch in 2024 and provide a new retirement option for private sector workers.
- **K-12 Education:** With this budget proposal, the Murphy Administration would be the first in New Jersey's history to fully fund the State's school funding formula. Governor Murphy is proposing a \$908 million increase for K-12 formula aid for a total investment of \$11.7 billion. This will successfully complete the seven-year phase-in of S2, a reform enacted in 2018. Since FY2018, School Funding Reform Act (SFRA) funding will have increased by \$3.5 billion, continuing to benefit students and teachers while decreasing districts' needs to raise property taxes. The budget proposal also advances the Governor's aim to improve reading performance by funding literacy screening.
- **Pre-K Education:** The Governor proposes an additional \$124 million for free pre-K education, which provides long-term benefits for our three- and four-year-olds while covering an immediate expense for parents. Of this amount, \$20 million will be used to expand into new districts, which could create over 1,000 new seats. Since FY2018, Governor Murphy has already increased pre-K funding by over \$427 million and created more than 14,600 new seats

Making New Jersey the Best Place to Raise a Family

at no cost to families. That represents tens of thousands of dollars in savings for individual families.

- **Housing:** The budget proposal helps increase housing supply and fund homeownership to bring costs down. The budget includes \$10 million to incentivize municipalities to create new accessory dwelling units (ADUs) to create more affordable options. It also invests \$15 million to help rental assistance recipients with pathways to homeownership, and to fund non-profits that rehabilitate homes in need of repair. This year's budget also proposes \$32 million for Down Payment Assistance. Since FY2022, the Administration will have invested nearly \$120 million into this program, which has already helped thousands of new homeowners.
- **Health Care:** The FY2025 budget provides \$82.5 million for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) and Senior Gold prescription discount programs, which will make prescription drugs more affordable for over 150,000 people. It also anticipates record enrollment in the Cover All Kids and Get Covered NJ programs, which provide low- or no-cost health care coverage to hundreds of thousands of families. The proposal also strengthens the Governor's Office of Health Care Affordability and Transparency, which will help to restrain future health care costs.

Meeting our Obligations and Maintaining Fiscal Responsibility: Governor Murphy remains laser-focused on turning around Trenton's fiscal troubles. The budget proposal addresses NJ TRANSIT's fiscal challenges, makes a full pension payment for the fourth consecutive year, sets aside surplus funds, and invests in major State projects—all while keeping total spending growth below one percent from the FY2024 adjusted appropriations.

- **Supporting NJ TRANSIT:** After six years, NJ TRANSIT has made major operational improvements in terms of reliability, customer satisfaction, staffing, capital investment, and safety. To ensure that NJ TRANSIT can maintain service as ridership recovers from the pandemic, the Governor is proposing to address the agency's fiscal challenges with the Corporate Transit Fee, an additional dedicated funding source exclusively paid for by corporations with incomes above \$10 million. In FY2025, the Governor is also proposing the second largest total State operating assistance to NJ TRANSIT.
- **Fiscal Responsibility:** To make the full Actuarially Determined Contribution for the fourth year in a row, Governor Murphy will contribute over \$7.1 billion into the State's pension systems. By consistently making the full payment, the Administration has curbed growth and improved the system's funded ratio. The budget proposal includes a \$6.1 billion surplus, which is nearly ten times larger than the average surplus under the previous administration.
- **Spending Realignment:** The Governor is proposing spending reductions totaling more than \$1 billion. Additionally, the withdrawal of pandemic-era federal funds will impact many agencies and programs. The budget proposal attempts to responsibly address those cuts. This budget also proposes starting to phase-out the electric vehicle (EV) sales tax exemption while investing additional dollars in targeted EV incentives.
- **State Operations:** Governor Murphy will follow-through on important commitments, including \$60 million to fund the third new juvenile justice facility, an additional \$120 million to finish the State Police Training Center started last year, and \$21 million to convert veteran home rooms to single occupancy. The Governor will also fund new beds and medical equipment at all three veterans' homes as part of our continued effort to provide veterans with the care they deserve.

Making New Jersey the Best Place to Raise a Family

Investing in Economic Opportunities and Community Growth: Under this Administration, New Jersey has become a national leader in the emerging technology, clean energy, and entertainment industries. In 2026, our state will have the world's attention as we host the FIFA World Cup Final and seven other matches. The budget proposal combines investments that advance our global ambitions with important support for our local communities.

- **High-Impact Investments:** To further the Artificial Intelligence Moonshot announced during the State of the State, the Governor proposes a suite of investments. These include an innovation challenge to reward solving public-facing problems with State data; a Global Entrepreneurs in Residence pilot so our universities can support international students starting cutting-edge businesses; and artificial intelligence programs for our school districts. The budget also continues to support popular programs like the Main Street Recovery Fund, Manufacturing Initiatives, and Strategic Innovation Centers. With this budget, these three programs will have received more than half a billion dollars over the past five years.
- **Jobs and Clean Energy:** This year, the Clean Energy Fund will have nearly \$275 million in resources. Governor Murphy proposes allocating \$15 million in State funds and \$25 million from the Clean Energy Fund to provide the State match for a federal grid modernization program that will create jobs and help the State meet its clean energy goals. The Board of Public Utilities awarded nearly 4,000 megawatts for offshore wind capacity in January. This could power nearly two million homes, and the Board of Public Utilities looks forward to an additional solicitation in FY2025.
- **Parks Capital:** In addition to the approximately \$100 million expected for Green Acres funding, the Governor will propose investing \$70 million from the Debt Defeasance and Prevention Fund to support State parks. These funds will largely be used to revitalize Liberty State Park and to prepare the Garden State Greenway for an FY2025 groundbreaking. The budget also continues funding for programs like Local Recreation Improvement Grants and Grants for Urban Parks, which together will have received over \$121 million since the start of the administration.
- **Local Heroes:** This budget provides new supports for our educators, health care workers, and firefighters. It continues to fund Student Teacher Stipends to help aspiring educators begin their careers and expands our Teacher Loan Redemption program to improve retention. The Governor proposes investing \$5 million into a suite of nursing workforce programs to make sure future nurses have experienced faculty and the resources they need to complete their training. The budget increases the Behavioral Healthcare Loan Redemption Program by \$2 million and provides an additional \$10 million for our Firefighter Grant program.

Supporting All New Jerseyans: Governor Murphy is committed to building a state where all families—especially those who worry they have been forgotten—have a fair shot at a better future. This budget proposal expands opportunity, shrinks inequities, defends fundamental rights, and protects public safety.

- **Preventing Homelessness:** The budget proposal increases rates for emergency hotel and motel placements to help families in need of emergency housing. It also launches an ambitious two-year initiative to end veteran's homelessness. The State would spend over \$30 million on services and interventions to help place over one thousand homeless veterans in New Jersey into stable housing.

Making New Jersey the Best Place to Raise a Family

- **Public Safety and Criminal Justice Reform:** The Governor proposes an additional \$9.5 million for ARRIVE Together. By nearly doubling funding for this collaboration between police and mental health professionals, the State will add new municipalities and hours of availability. The budget also supports new investments in our parole system and Office of the Public Defender to ensure that New Jerseyans' rights are protected and that we maintain our exceptionally low recidivism rate. These efforts reflect an approach toward criminal justice reform that is helping save lives while also building trust in law enforcement.
- **Maternal and Reproductive Health:** This budget invests nearly \$20 million in the Statewide Universal Newborn Home Nurse Visitation Program, which will expand New Jersey's groundbreaking universal home visitation for new mothers from 2,200 to 16,700 families in the next year. It also supports a program to cover delivery fees for some participants in the Women, Infants, and Children (WIC) program so they can purchase infant formula and other groceries online. The budget includes operating funds for the Maternal and Infant Health Innovation Authority, which was established last July to advance the First Lady's Nurture NJ Initiative. With this budget, Governor Murphy will have invested over \$216 million into family planning services and other reproductive health programs, after these programs were completely defunded by his predecessor.
- **Food Insecurity:** The Governor's budget includes an additional \$30 million for school meals in FY2025. Since the enactment of the Working-Class Families Anti-Hunger Act, over 70,000 children have become eligible for free breakfast and lunch. New Jersey will also join 34 other states to take part in the Summer EBT program, which will combat child hunger and bring in over \$60 million in federal funds. With this year's spending on school meals and \$91.8 million investment in food assistance programs, the Murphy Administration will have provided over \$620 million to food security programs since 2018.
- **Diversity and Inclusion:** The budget proposal provides initial funding to address the recently published study on disparities in State procurement, and it continues to fund economic development initiatives—like employee stock ownership plans—that help reduce wealth disparities. The budget also starts to fund language access services and the translation of vital documents to implement P.L.2023, c.263, which the Governor signed in January.
- **Opioids:** Based on recommendations of the New Jersey's Opioid Recovery and Remediation Advisory Council, Governor Murphy recently announced plans to disburse \$95 million to expand harm reduction centers, addiction treatment access, community peer recovery centers, housing supports for individuals with substance use disorder, and more – all paid for by the historic settlements with opioid manufacturers and distributors. Over the next two decades, these settlements will provide more than \$1 billion to address the opioid crisis in New Jersey.

The FY2025 Budget

A Summary of the State Budget

- The FY2025 budget presented by Governor Murphy recommends appropriations totaling \$55.9 billion.

FY2025 Budget

(In Millions)

	FY2024	FY2025	Change	
	Adjusted		Budget	\$
	Approp.	Budget	\$	%
Opening Surplus (Undesignated)	\$ 10,212	\$ 7,853		
Open Space Reserve	212	60

Revenues				
Income	\$ 18,709	\$ 19,356	647	3.5
Sales	13,247	13,735	488	3.7
Corporation	5,131	4,360	(771)	(15.0)
Corporate Transit Fee	-	1,023	1,023	-
Business Alternative Income Tax	4,327	4,466	139	3.2
Other	10,831	11,169	338	3.1
Total Revenues	\$ 52,245	\$ 54,109	1,864	3.6
Lapses	677	-		
Total Resources	\$ 63,652	\$ 62,328		
Appropriations				
Original	\$ 54,450	\$ 55,908		
Supplemental	983	-		
Total Appropriations	\$ 55,433	\$ 55,908	475	0.9
Ending Open Space Reserve	(60)	(312)		
Ending Surplus Revenue Fund Balance	(306)	-		
Projected Ending Undesignated Surplus	\$ 7,853	\$ 6,108		
Combined Ending Surplus	\$ 8,159	\$ 6,108		

The FY2025 Budget

- More than 42 percent of the State budget will be distributed through school aid to districts, or municipal aid payments to towns and cities across New Jersey. Appropriations of this type are referred to in the budget as State Aid, and total \$23.6 billion.
- Over half of the remaining budget, or 31.8 percent of the total, is used by State government to purchase services that directly benefit residents in need. These services, which include health care coverage for low-income residents and community-based support for those with disabilities, are categorized as Grants-In-Aid and total \$17.8 billion.
- Debt Service (excluding school construction, which is a form of State Aid) will be \$3.3 billion, almost six percent of the budget.
- Executive Operations, which represents the various direct costs of running State government, is \$4.9 billion, or 8.8 percent of the total FY2024 budget.

The revenues that will support the FY2025 budget are anticipated to be \$54.1 billion.

Building the FY2025 Budget

(In Billions)

Executive Operations: includes adult prison and juvenile facilities, State Police and law enforcement, children and families, human services and mental health institutions, and veterans' homes.

Grants-In-Aid: includes property tax relief programs, NJ FamilyCare, child protection, the Children's System of Care, services and programs to support individuals with intellectual and developmental disabilities, and support for higher education.

State Aid: includes education aid programs, school construction debt, municipal aid, income assistance programs, and aid to county colleges.

Affordability

Making New Jersey a more affordable place to live is a key priority of the Murphy Administration. That is why, even in the context of high inflation, supply chain breakdowns, and two major wars, this budget continues to invest in the programs we have designed and expanded these past six years to meet the challenges of today’s economy on regular households.

Tax Relief

Almost 49 percent of the FY2025 budget recommendation, or \$27.3 billion, is allocated to direct and indirect property tax relief programs. These programs include school aid, municipal aid, and direct property tax relief to taxpayers.

Funding for Property Tax Relief

2.9% Increase

(In Millions)

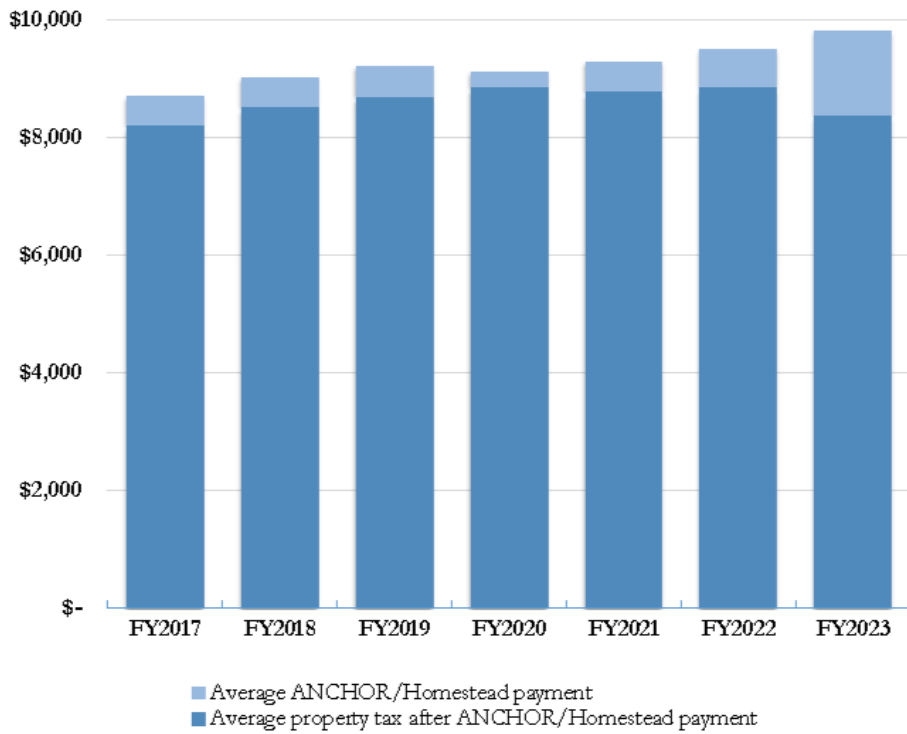

<u>Programs</u>	FY2024	FY2025	Change	
	Adjusted Approp.	Budget	\$	%
School Aid	\$ 19,712.2	\$ 20,773.6	1,061.4	5.4
Direct Property Taxpayer Relief	3,419.1	3,586.1	167.0	4.9
Municipal Aid	1,769.5	1,635.2	(134.3)	(7.6)
Other Local Aid	1,685.6	1,351.8	(333.8)	(19.8)
Total Property Tax Relief	\$ 26,586.4	\$ 27,346.7	760.3	2.9

FY2024 and FY2025 School Aid amounts exclude \$867.1 million and \$875.2 million, respectively, in pension contributions funded from the Lottery Enterprise Contribution Act. Direct Property Taxpayer Relief includes Property Tax Deductions supported through the Gross Income Tax.

The reduction in Other Local Aid represents the elimination of one-time costs appropriated in FY2024 for state-wide local improvements.

Headline property taxes have increased by just 12.8 percent in the six years since the Governor took office, about half of the rate of inflation over that time. In 2023, property taxes fell by 0.05 percent on an inflation-adjusted basis. Fiscal Year 2025 will mark the third year of the Governor’s historic Affordable New Jersey Communities for Homeowners and Renters (ANCHOR) Program. In FY2025, ANCHOR is expected to provide direct property tax relief for nearly 1.3 million homeowners and over 700,000 renters. After accounting for ANCHOR and previous Homestead Benefit payments, the typical homeowner’s property taxes are about \$150 less than they were in 2017, and more than 20 percent less in inflation-adjusted terms.

Average Property Taxes (nominal dollars)

This budget also provides funding for the expansion of the Senior Freeze property tax relief program, under which senior and disabled property taxpayers receive rebate checks for any amount of property tax that exceeds the tax they paid in their base year, effectively freezing their tax bills. As signed into law last year, the expanded income eligibility and relaxed residency requirements will allow more than 58,000 more taxpayers to freeze their tax bills. This proposal also includes \$200 million to prepare for the implementation of the Stay NJ program, scheduled to begin in 2026.

Direct Property Taxpayer Relief Programs

(In Millions)

	FY2024	FY2025	Change	
	Adjusted Approp.		Budget	\$
ANCHOR Property Tax Relief Program	\$ 2,257.9	\$ 2,279.9	22.0	1.0
Property Tax Deduction Act	837.7	879.5	41.8	5.0
Stay NJ Property Tax Credit Program (P.L. 2023, c.75)	100.0	200.0	100.0	100.0
Senior and Disabled Citizens' Property Tax Freeze	181.8	188.1	6.3	3.5
Veterans' Property Tax Deductions	35.2	32.4	(2.8)	(8.0)
Senior and Disabled Citizens' Property Tax Deductions	6.5	6.2	(0.3)	(4.6)
Total Property Taxpayer Relief Programs	\$ 3,419.1	\$ 3,586.1	167.0	4.9

FY2025 continues these programs unaltered. The FY2024 expansion for the Senior and Disabled Citizens' Property Tax Freeze will begin to benefit eligible taxpayers in FY2025. The Stay NJ Property Tax Credit (P.L. 2023, c.75) will begin to benefit eligible taxpayers in FY2026.

Extending beyond property tax relief, this budget continues the historic income tax relief to working families that this Administration has championed, including the Child Tax Credit that was expanded last year, as well as the state-level Child and Dependent Care Credit and the Earned Income Tax Credit.

Program Participation in Tax Relief Programs

The FY2025 Budget

Municipal Aid

To help our cities provide high-quality services and keep their property taxes down, the FY2025 budget includes over \$1.6 billion in municipal aid. The Murphy Administration continues to focus on advancing shared services through the Local Efficiency Achievement Program (LEAP) and the School Regionalization Efficiency Program (SREP). Since 2020, the Division of Local Government Services has awarded 90 LEAP grants totaling \$12.7 million. During that same time the division has recognized over 1,700 shared services agreements with anticipated cost savings exceeding \$240 million.

Fiscal Responsibility

To ensure that New Jersey can continue to provide the affordability and quality of services that its residents deserve, the Murphy Administration has prioritized strengthening New Jersey’s finances and reducing its costs. These combined efforts have been recognized by the four bond ratings agencies, which have collectively upgraded the State’s credit rating seven times in the last 24 months – which will save future taxpayers tens of millions of dollars in future interest payments. Last month the Administration announced another tranche of debt defeasance, taking another \$500 million off the State’s books and saving \$160 million in interest payments. Over the last three years, the State has defeased a total of \$3.998 billion in bond principal, saving taxpayers \$1.358 billion in interest.

Governor Murphy continues the path of fiscal responsibility for the pension systems with a fourth consecutive full pension payment. The recommended contribution in FY2025, including contributions from the State lottery, totals approximately \$7.162 billion. The FY2025 contribution will increase by 1.1 percent, one of the lowest year-over-year increases since efforts began to fully fund pension contributions in FY2007. Employer payments since FY2022 have contributed to a decrease in unfunded liabilities and an improvement in the funded ratio of the State pension systems. The funded ratio for all State pension systems, which compares actuarial assets and liabilities of the plans, has steadily increased from 49.8 percent in FY2022 to a projected 52.4 percent in FY2025. When the proposed FY2025 pension contribution is included, the combined pension contributions during the Murphy Administration will total nearly \$40 billion, more than three times the total amount contributed by the previous six governors combined. The required contribution is nearly seven times higher than what it would have been if previous governors and legislatures had made full payments in all past years. By making full employer contributions the Murphy Administration is reducing the fund’s liabilities and saving taxpayers money by preventing future growth.

The FY2025 Budget

The responsible fiscal management of this Administration and its partners in the Legislature have helped to prepare the State for the tighter climate we are facing now, with most pandemic-related federal aid allocated and State revenues softening. The substantial surplus built up over the past several years can help prevent the need for deep spending cuts or tax increases. However, some belt-tightening is still necessary to ensure that we can continue to meet the State’s vital commitments in future years. For that reason, this budget recommends eliminating most of the direct grant programs in last year’s budget. It also proposes significant reductions to many older direct grants, and reductions to many formulaic and competitive grant programs that have been established or grown substantially in recent years.

Pre-K to 12 Education

The FY2025 budget provides \$21.6 billion in funding for pre-K to 12 education (including \$875.2 million from the Lottery Enterprise Contribution Act), an increase of \$1 billion over the previous year. This includes direct payments for pension and health benefits payments for educators, representing the highest amount of School Aid funding provided in New Jersey history.

K-12 Education

For the first time in history, this budget would fully fund the school aid formula under the School Funding Reform Act (SFRA), completing a seven-year plan designed in partnership with the Legislature to rebalance school aid among districts. The Governor recommends a historic increase in aid of \$908 million over the previous year, including reallocations from overfunded districts to over 400 underfunded ones. This historic increase, due largely to inflationary growth, will help schools to keep up with rising costs and limit excessive growth of property taxes. Since the Administration took office, school aid will have increased by 43 percent, to \$11.7 billion. The Administration plans to review the funding formula following the completion of this seven-year transition period.

Governor Murphy Provides Unprecedented Support to Pre-K to 12 Education

(In Thousands)

<u>Governor</u>	<u>Pre-K - 12 Formula Aid</u>
McGreevey/Codey	\$ 26,649,503
Corzine	31,313,341
Christie I	32,801,876
Christie II	34,719,064
Murphy I	38,439,799
Murphy II	35,658,699

Murphy II reflects only the first 3 fiscal years of Murphy’s second term (FY2023 through FY2025).

History of K-12 School Formula Aid

(In Billions)

FY2015 through FY2023 represent the amount that was expended.

The Department of Education will continue to focus on learning acceleration and literacy. The Department announced a \$52 million dollar grant program for high-impact tutoring, a highly effective and evidence-based intervention, in July, which provides funding to districts for high-dosage, targeted interventions. The budget supports the Reading Acceleration Professional Integrated Development (RAPID) and RAPID Plus grant programs, which are designed to train K-6 educators in best practices in reading and writing development. Educators will also be trained on strategies to improve student outcomes and evidence-based interventions.

The Governor looks forward to working with the Legislature to improve student literacy. The budget also includes a \$2.5 million allocation for a grant program to help school districts acquire literacy screening tools, which will help target resources to children most in need of support.

To help prepare our students for the economy of the future, the budget includes a new grant program to help schools explore generative artificial intelligence and another program to support school districts, institutions of higher education, and businesses create new AI-focused career and technical education courses. These grants will support efforts by the Department of Education to include AI literacy into the State standards for information literacy, and to issue guidance on best practices for the use of AI in the classroom.

Because the Governor signed P.L.2023, c.147 last summer, the budget will also support the Menstrual Products School Reimbursement Program, which will let school districts provide menstrual products free of charge in every public school teaching students in grades six through twelve.

Pre-K

The Murphy Administration has already increased preschool funding by over \$427 million since 2018, making early education available for more than 14,600 additional children in 211 school districts as part of the Governor’s commitment to universal pre-K. This year, the Governor’s budget includes \$124 million in new funding, which fully funds programs that started in FY2024, and includes an additional \$20 million that can be used to expand programs into new districts or support other needs like workforce development. The Department of Education will also continue to work with school districts and child care providers to advance the mission of universal access to high-quality pre-K programs.

History of Preschool Aid

FY2020 Preschool Education Aid included \$5 million for preschool wrap-around care. This program has been shifted to a standalone appropriation starting in FY2021.

FY2016 through FY2023 represent the amount that was expended.

School Construction

Drawing from the \$1.9 billion appropriated to Schools Development Authority (SDA) from the Debt Defeasance and Prevention Fund in FY2023, an additional \$350 million will be made available in FY2025 – up from \$250 million in FY2024 – for current projects and to help SDA move forward on projects identified in its 2019 Statewide Strategic Plan and 2022 update. An additional \$50 million of General Fund appropriations will also support capital grants in SDA districts to ensure students have safe and modern learning environments.

Higher Education

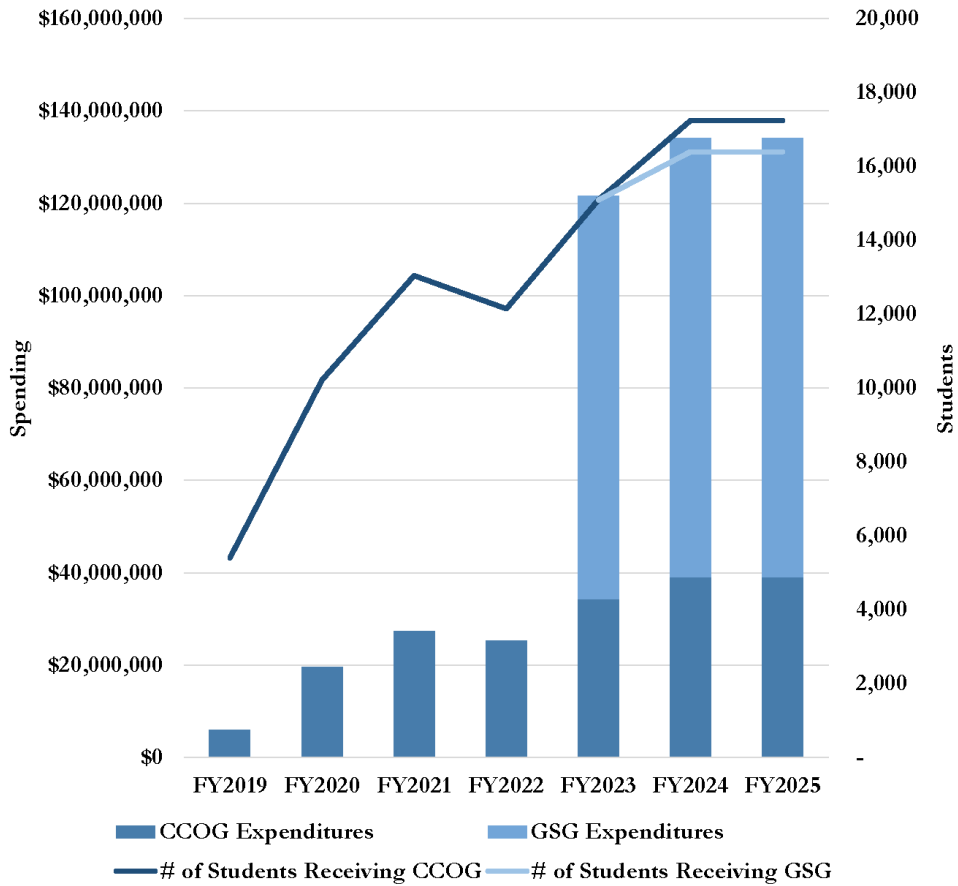

This budget includes more than \$3.144 billion (including \$127.1 million from the Lottery Enterprise Contribution Act) towards direct support of higher education institutions and for programs that provide financial assistance to students.

This budget continues Governor Murphy’s commitment to make college education more affordable and accessible to New Jersey’s students. The budget provides funding of nearly \$455.9 million for Tuition Aid Grants (TAG), extending the additional benefit provided in FY2024 for the students with the most financial need. Summer TAG will be funded as a stand-alone program, and this year summer benefits will be funded at half of students’ expected regular TAG amounts. The budget proposal also includes \$134.1 million for New Jersey’s College Promise programs – the Community College Opportunity Grant (CCOG) and Garden State Guarantee (GSG) – enough to ensure that thousands of lower-income students receive a college education at no cost, and thousands more earning under \$100,000 graduate college with little to no debt.

The Governor’s budget also makes targeted investments in programs to encourage students to pursue in-demand, high-skill, and high-wage careers and fulfill needs in the future workforce. The \$10 million added in the FY2024 budget for Student Teacher Stipends continues in FY2025, and the budget includes \$1 million for the High Poverty School District Minority Teacher Recruitment Program.

The budget boosts the Teacher Loan Redemption Program by \$4 million over last year, and the Behavioral Healthcare Provider Loan Redemption Program by \$2 million. An additional \$5 million in initiatives to boost the nursing workforce are provided as well, including \$213,000 to train nurses who commit to serving the Family Connects NJ program, \$1.787 million in the Pay It Forward program to provide zero-interest, no-fee loans; \$2 million for the Primary Care Practitioner Loan Redemption Program; and \$1 million for the Nursing Faculty Loan Redemption Program.

College Promise: CCOG and GSG by Academic Year

FY2019 through FY2023 represent actual expenditures and students, while FY2024 and FY2025 reflect estimated values.

New Jersey’s institutions of higher education continue to instruct and graduate one of the best-educated populations in the nation. This budget extends several initiatives to help students complete their education, including the promising Some College, No Degree program launched in FY2023.

New Jersey Degree Attainment Rate

Attainment rate progress percentages are actuals for calendar years 2009 through 2022 and estimates for calendar years 2023 and 2024.

To ensure stability and future success for New Jersey’s institutions of higher education, this budget recommends providing \$75 million to address high fringe benefit costs faced by public research universities, and to help them become more competitive for federal, State, and privately funded research grants.

Economic Growth

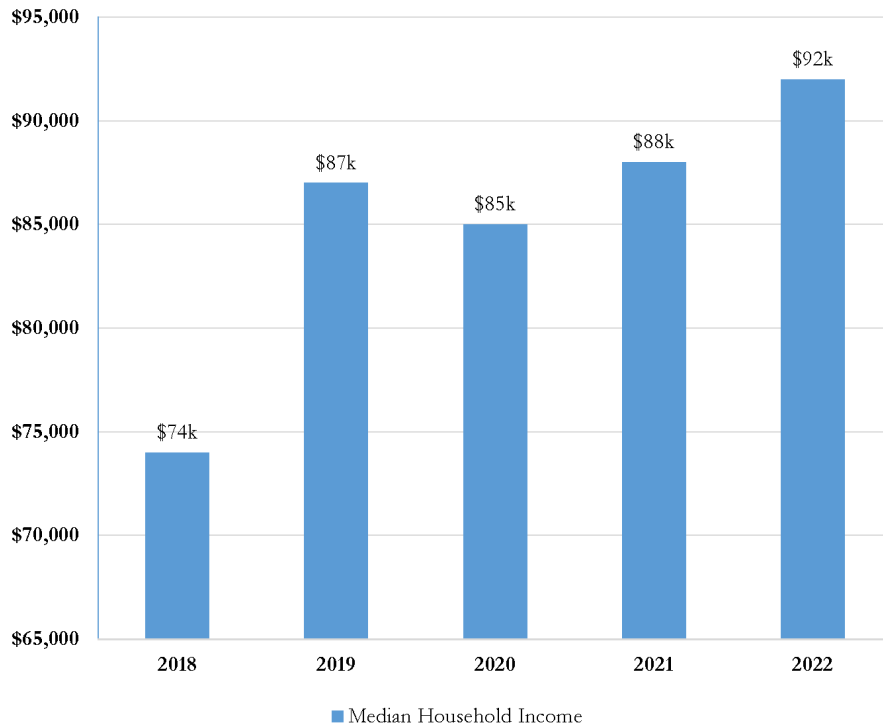

This Administration’s dedication to building a stronger and fairer economy in New Jersey continues with this budget proposal. The Governor’s economic growth record is built on support for small businesses and inclusive growth, within a framework that promotes innovation and competitiveness. The result has been growing numbers of jobs, small businesses, GDP, and population. These conditions keep a larger percentage of people working, improve personal incomes, and bolster state tax revenues. Small business growth continues at a strong pace since the pandemic.

NJ is Growing New Small Businesses

Since 2018, NJ has added 60,932 small businesses

NJ Household Income Is Growing

Since 2018, household income has grown by \$18,160

Innovation Economy

The sudden emergence of generative artificial intelligence into the economy offers New Jersey a tremendous opportunity to be a leading location for this new industry. In December, Governor Murphy announced a partnership with Princeton University to create a new AI innovation hub, and the Administration has announced the AI Moonshot initiative. To build on these, this budget proposes launching an Innovation Challenge which will award \$4.5 million in grants to innovators including researchers, students, and entrepreneurs to use State data to develop new and innovative AI uses for the benefit of the State and its residents. The Innovation Fellows program will receive \$2.5 million to help budding entrepreneurs build out start-ups related to general artificial intelligence and connect with the AI innovation hub. Additionally, \$500,000 will be provided for an AI-focused New Jersey Global Entrepreneur-in-Residence program at New Jersey institutions of higher education to encourage promising international students to employ their talents in New Jersey after graduation.

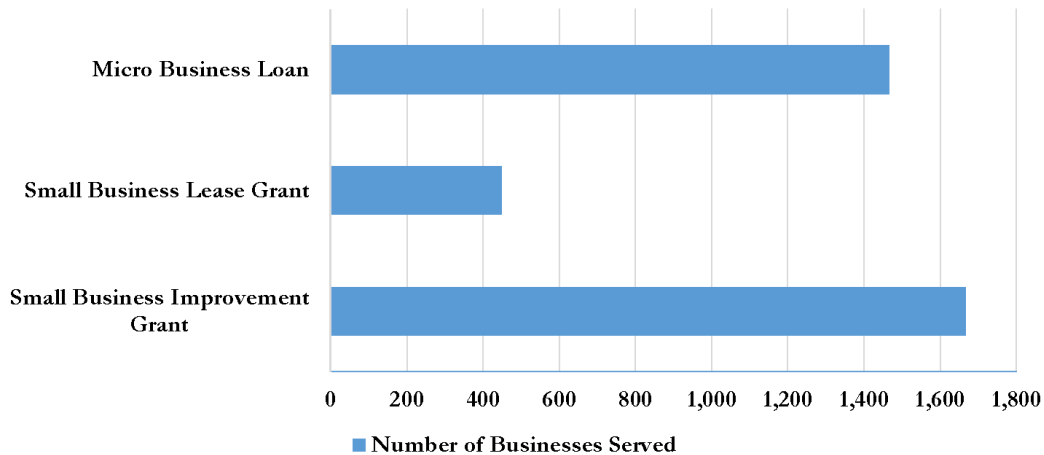

In 2023, the EDA approved ten Qualified Venture Firms (QVF) under the New Jersey Innovation Evergreen Fund. Approved QVFs include firms from New Jersey, as well as from California, New York, Pennsylvania, and Illinois, representing a potential net importation of capital into the State. In October, the EDA Board approved the Fund’s inaugural investment by EMERGING Fund Management into Newark-based 1Huddle, Inc.

Main Streets and Development

Small business support has been key to New Jersey’s economic recovery and success since the COVID-19 pandemic began. Through the Main Street Recovery Act, the EDA has been able to provide financial assistance to nearly 3,900 small businesses. The EDA has also been able to help more than 1,500 small businesses with its ongoing flexible small business programs – the Small Business Improvement Grant, Small Business Lease Grant, and Micro Business Loan programs – and provide additional assistance through targeted programs to small businesses in key sectors such as restaurants, child care, and manufacturing. Demonstrating the Administration’s success in promoting equitable growth, more than a third of Improvement and Lease grants have been awarded to minority-owned businesses.

EDA Small Business Assistance

2020-2023

Similarly, the EDA’s Strategic Innovation Centers program supports a strong pipeline of transformative projects, including the HELIX life sciences hub in New Brunswick and the HAX global headquarters in Newark – which in February became the first project approved under the Aspire Tax Credit Program. The Governor recommends \$30 million of ongoing funding for this program.

Since Governor Murphy enacted the Garden State Film and Digital Media Jobs Act in 2018, production spending on film has skyrocketed from \$67 million to over \$700 million annually, supporting over 8,500 jobs and a vibrant talent ecosystem. Last July, the Governor signed a bill expanding the tax credit through 2039 and increasing the annual allocation to \$430 million, to continue advancing New Jersey as a top destination for film and television productions. Further, Netflix is investing \$1 billion to build a flagship studio at Fort Monmouth, which is expected to create 3,500 construction jobs and 1,500 permanent jobs. In Newark, Lionsgate is also constructing a major studio, and 1888 Studios will reshape Bayonne with the largest ground-up movie studio complex in North America. These projects, among others, will ensure the sustainability of this industry in the years to come.

Tourism

New Jersey’s tourism economy has rebounded since the pandemic. The number of visitors and their spending fell just shy of pre-pandemic levels in 2022. Statewide, summer 2023 hotel room revenue reached 108 percent of 2019 levels. Events like the Tidal Wave festival and the North to Shore festival have driven traffic and economic activity in multiple locations in the State. Tourists will soon flock to New Jersey for the FIFA World Cup 26™, when New Jersey will host eight matches, including the final.

New Jersey Visitors and Spending

Inclusive Growth

To advance the work of the Wealth Disparity Task Force, the Governor proposes to spend \$3 million on support for businesses interested in forming Employee Stock Ownership Plans. These plans give employees the chance to share in the benefits of business ownership.

In May, the EDA board approved three firms to manage the \$20 million Black and Latino Seed Fund. Conscious Venture Partners LCC, Red Bike Capital LLC, and Tale Venture Partners LLC each manage portions of the fund and make investments into early-stage, innovative, Black- and Latino- owned businesses throughout the state.

In September, the EDA established the Diversity Finance Advisory Board (DFAB) to provide knowledge, guidance, and insights on how to best increase access to institutional capital for New Jersey’s diverse entrepreneurs. This board is comprised of investment, entrepreneurship, and subject-matter experts with a commitment to diversity and inclusion.

Housing

Affordable Housing and Homeownership

In Fiscal Year 2025, the Department of Community Affairs (DCA) will begin several new programs to promote homeownership among low-income residents. It will expand the federally funded Section 8 Homeownership Program and Family Self-Sufficiency Program to recipients of the State Rental Assistance Program, giving them an opportunity to build equity toward permanent housing. A new Low-Income Homeowner Rehabilitation Fund and Homeownership Opportunity Development Program would help maintain and develop housing for low-income households. In addition, a new \$10 million appropriation will help towns incentivize homeowners to create new affordable Accessory Dwelling Units (ADUs) or convert existing units. This grant will allow towns to diversify the types of housing they can use in their affordable housing settlements, and incentivize towns to adopt or revise ADU ordinances so that more ADUs can be developed in New Jersey. Each of these new initiatives will be supported by the Affordable Housing Trust Fund.

The budget also includes a total of \$32 million to continue the Down Payment Assistance program. The State will have invested nearly \$120 million into Down Payment Assistance since FY2022, and last year the State made over 2,000 loans.

NJHMFA Down Payment Assistance Recipients

The FY2025 Budget

The Housing and Mortgage Finance Agency (HMFA) received a jolt of new resources to jumpstart dozens of housing projects from the Affordable Housing Production Fund, which consists of \$305 million authorized in the FY2023 budget, the \$60 million Production Fund Set-Aside to support COVID-19 affected projects, \$50 million for the Workforce Housing Program, and \$80 million for the Urban Preservation Program. HMFA has dedicated more than \$245 million of the \$305 million Production Fund within approximately one year of program launch. HMFA also committed nearly all of its \$60 million in Production Fund Set-Aside financing, which has helped close 22 projects that were impacted by pandemic supply chain problems, creating 1,547 housing units and unlocking more than \$500 million in total development costs.

Sheltering and Homelessness Prevention

Despite ongoing challenges in the housing market, efforts supported by the State and local governments have proven effective at preventing homelessness, and when homelessness does occur, providing shelter and services to keep people safe. The Office of Eviction Prevention and the Office of Homelessness Prevention have worked to provide legal services, resource navigation, and other assistance to tens of thousands of households. Unsheltered homelessness has declined 22.8 percent year-over-year in the state.

Office of Homelessness Prevention

Program Census

OHP Program	2022	2023	Change
Prevention and Supportive Services	92,778	115,908	24.9%
Sheltered Homelessness Services	16,566	19,402	17.1%
Permanent Housing Programs	12,062	12,970	7.5%
Unsheltered Homelessness Services	11,265	8,692	-22.8%
Transitional Housing Programs	2,659	2,620	-1.5%

This budget supports a bold effort to eliminate veteran homelessness across the state in the next two years, bringing it to functional zero – meaning that all existing homeless veterans are housed and the system has capacity to place any newly homeless veteran in housing within 30 days. The funding of over \$30 million would support interventions and long-term investments to get the 993 sheltered and 174 unsheltered homeless veterans in New Jersey into stable housing and provide short-term services and long-term support. By helping the existing homeless veteran population and adding capacity so new homeless veterans can be housed quickly, this investment would functionally end veteran homelessness in New Jersey.

The budget also recommends \$9.5 million in State and federal funds in FY2025 to extend the Department of Children and Families' Domestic Violence Housing program, started at the onset of the COVID-19 pandemic to house domestic violence victims in hotels rather than congregate shelters, but is now transitioning to an evidence-based Housing First model. Additionally, over \$4 million in growth over FY2024 is recommended to increase rates paid for emergency hotel and motel placements funded by the Department of Human Services, to ensure ongoing viability of this emergency housing option.

Labor and Workforce Development

Employment and Workforce Development

The past six years of the Murphy Administration have brought significantly enhanced protections and benefits for New Jersey's workforce, including a rise in the minimum wage, which is now above \$15 per hour for most employees. The workforce now exceeds 4.3 million workers, and our state has seen a nearly 25 percent growth among private sector worksites compared with six years ago.

Since Governor Murphy took office in January 2018, the Department of Labor (NJDOL) has prioritized helping New Jerseyans access good jobs and build sustainable careers. The State has invested almost \$60 million to develop apprenticeship, pre-apprenticeship, and work-based programs, contributing to the creation of 652 new Registered Apprenticeship programs – a 100 percent increase – and the onboarding of more than 17,000 new apprentices. Of note, the Growing Apprenticeships in Nontraditional Sectors (GAINS) grant program has provided unprecedented opportunity for women and people of color, with more than two-thirds of GAINS grant participants being women or minorities. The program has doubled the number of women apprentices statewide from six years ago.

Under the new minor working papers law, the NJDOL now provides one centralized location to submit applications. The FY2025 budget includes additional funds, through the Workforce Development Partnership Fund, for the online database. This will help relieve local school districts of the cost to perform these functions.

Unemployment and Other Workers' Insurance

Since FY2019, the NJDOL has serviced over 4.2 million Unemployment Insurance (UI) claims and delivered \$45.2 billion in unemployment benefits. For Calendar Year 2023, preliminary estimates point to \$611 million in Temporary Disability Insurance (TDI) benefits paid to more than 80,000 claimants, and \$500 million in Family Leave Insurance (FLI) benefits paid to nearly 64,000 claimants. This is an increase of 55 percent and 400 percent, respectively, in benefits paid as compared to six years ago. The number of TDI recipients was about on par with the last several years, while FLI recipients have nearly doubled since the start of the Murphy Administration.

Gross Benefit Payments

(In Millions)

Over the past several years, major State investments in replacing the antiquated UI systems and outdated hardware to provide a stable environment will support increased volume, reduce the risk of fraud, increase the transparency of the process, and allow for new self-service functions. Efforts by NJDOL and the Office of Innovation to revamp over 70 email and mailed letter templates have led to a 75 percent decrease in the time beneficiaries take to read the State’s communications and take requested actions.

Labor Protections

The Wage and Hour Division has stepped up its enforcement of wage and hour and prevailing wage violations with additional stop-work order powers – 57 orders were issued in 2023 bringing the total to almost 150 stop-work orders to date. This enforcement approach enables the Department to address construction industry violations earlier in the process, reducing the number of workers employed in violation, and lessening the number of unscrupulous employers who misclassify and underpay their workers. Calendar Year 2023 set a record for the back wages assessed, at \$27.3 million.

Health Care and Social Services

Maternal and Infant Health

The budget continues to advance the mission of Nurture NJ, First Lady Tammy Murphy’s maternal and infant health initiative, which seeks to make New Jersey the safest and most equitable state in the nation to deliver and raise a baby. Last summer the Governor signed P.L.2023, c.109 to create the new Maternal and Infant Health Innovation Authority. The FY2024 budget provided for capital funding to construct the Center, which will be in Trenton. The Center will advance the equitable

provision of maternal and infant health care and social services, bolster research, serve as a training site for the perinatal workforce, and catalyze new innovations to drive improved outcomes. The budget provides another \$2.2 million to fund the operations of the Center for FY2025.

Family Connects NJ, the State’s universal newborn home nurse visitation program, which sends registered nurses to conduct home visits for mothers and newborns within the first two weeks after birth, launched in five counties in January. This budget provides an additional \$4 million so the program can serve more families and expand into six more counties. The Department of Children and Families expects the program to grow rapidly, serving just over 2,000 families during its initial stages in FY2024, but reaching over 16,000 in FY2025.

Governor Murphy is also recommending funding for a program to cover delivery fees for Women, Infant, and Children (WIC) recipients who purchase infant formula and other WIC-approved food items online.

Reproductive Health

New Jersey will continue its commitment to making the State a safe place for women to exercise their bodily autonomy and choose if and when to have a family. The FY2025 budget includes more than \$50 million for reproductive health programs (in addition to those covered by State-sponsored insurance programs) to provide safety net family planning services, upgrade family planning facilities to serve more patients, and grow the reproductive health care workforce.

Reproductive Health Funding

(In Thousands)

Youth Mental Health

The Murphy Administration has worked to develop and strengthen a statewide system of youth mental health resources and services to ensure that young people receive the prevention, treatment, and crisis intervention that they need to thrive. New Jersey has been building its interagency continuum of care to address the ongoing youth mental health challenges exacerbated by the COVID-19 pandemic and will continue to innovate and support programs to meet youth wherever they need support.

The FY2025 budget includes \$43 million for the NJ Statewide Student Support Services (NJ4S) network, which stood up its first regional hubs in September and has begun to provide a variety of services in schools and community settings. As of February 1, 498 schools and 295 districts have signed up for the NJ4S platform, and more than 1,200 community-based programs have been administered. The Department of Children and Families (DCF), will also continue to support nearly 60 Family Success Centers throughout New Jersey, which serve as one-stop shops for wraparound resources and supports for families before they find themselves in crisis.

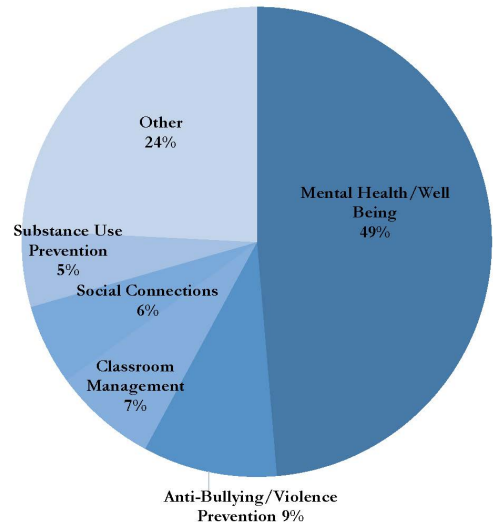

DCF’s Children’s System of Care is a model for the nation, providing care management and connections to behavioral health services to youth under the age of 21 years, at no charge to the family, regardless of insurance status. It also includes a new investment of \$7.3 million in State funds to expand respite services.

The State, through its Departments of Children and Families, Education, Health, and Human Services, have supported the development and dissemination of youth mental health and suicide prevention materials and trainings, and developed a Comprehensive School Based Mental Health Resource Guide. To help address mental health needs of college students, this budget continues the Tele-Mental Health Partnership program run by the Office of the Secretary of Higher Education.

Youth Protection Services

The FY2025 budget includes a total of \$1.13 billion in State, dedicated, and federal funds for New Jersey’s Child Protection & Permanency system in DCF. After nearly two decades, New Jersey has exited formal federal oversight of its child welfare system with a system that is at the forefront of the national conversation on the development and deployment of a child- and family-wellbeing system that empowers and encourages stability. Governor Murphy remains committed to maintain the best possible system for protecting children from abuse. This Administration has sought to prioritize supportive services that keep families together or place children with relatives, rather than removing children to foster care or group homes. New Jersey has made significant progress and now has the lowest out-of-home placement rate and the fourth lowest maltreatment rate in the country.

NJ4S Classroom-Based Services Provided

Children in Out-of-Home Placement by Calendar Year

The budget also includes infrastructure investments, including almost \$17 million in State and SFRF funds to transition current services to evidence-based practices in response to the requirements of the federal Families First Act, which will provide additional federal funds to support services for children in the child welfare system.

Child Care

The Murphy Administration has invested more than \$1 billion in State and federal pandemic aid to expand and strengthen the child care system after more than a decade of the industry receiving no new increases. This budget subsidizes child care for more than 66,000 children and provides \$3.6 million for wage increases for child care providers. Since this Administration enacted the Child and Dependent Care tax credit in 2018, it has already returned \$160 million back to families facing budgetary hardships and continues to benefit more than 120,000 families each year.

In the FY2025 budget, there is a continued commitment to develop child care capacity with another \$15 million allocation of American Rescue Plan dollars to the EDA’s child care facilities program. EDA will approve over \$110 million and make substantial investments in hundreds of child care centers that serve tens of thousands of children.

Due to Congress’ failure to appropriate any additional federal funding for child care, the State is not able to support certain pandemic-era changes for all of FY2025. The budget assumes that co-pay waivers will end in July and that provider payments will be based on attendance in January.

Food Assistance

Especially since the start of the pandemic, the Murphy Administration has worked to ensure that no family goes without food. This budget provides \$30 million in new funding to expand access to free school meals under the Working-Class Families Anti-Hunger Act, to cover children in families making under 225 percent of the federal poverty level. Since we enacted the Working-Class Families Anti-Hunger Act, over 70,000 children have become eligible. This budget also provides \$2.8 million in State funding for the Summer Electronic Benefits Transfer (EBT) program, a new program that will help children who cannot get school meals during the summer, and will bring over \$60 million from the federal government back to New Jersey. This budget also continues to allocate \$85 million in support for food banks and emergency feeding organizations.

The Department of Human Services will continue to ensure a minimum of \$95 per month to every household receiving Supplemental Nutrition Assistance Program (SNAP) benefits, making New Jersey the state that has done the most to preserve expanded resources for food security in the wake of the expiration of federally funded COVID-era benefits. The budget also includes enhanced funding to support county offices to efficiently process SNAP applications, getting families access to support when they need it.

State Spending on Food Security Programs

(In Millions)

FY2018 through FY2023 represent the amount that was expended while FY2024 and FY2025 represent the amount budgeted.

Health Care Affordability and Accessibility

This budget provides over \$6 billion in State funding for the NJ FamilyCare program, providing comprehensive health care benefits to approximately 2 million low-income New Jerseyans. This includes over 41,000 children already enrolled through Phase II of the Cover All Kids initiative, launched in January 2023, which allows children to enroll in NJ FamilyCare regardless of immigration status. The program has been tremendously successful at getting children access to health care, enrolling more than four times the number of children originally forecast for this stage of its rollout.

NJ FamilyCare Enrollment

Children includes “Title XIX Children” and “Title XXI” enrollment groups, while Adults refers to all other Title XIX enrollment groups.

Several critical provisions of federal law related to the COVID-19 pandemic expired in 2023, creating new dynamics for the program. A bonus to the Medicaid and Children’s Health Insurance Program (CHIP) federal matching rates has expired, forcing the State to pick up \$144 million in absent matching funds in FY2025. The unwinding of the federal continuous enrollment condition means that eligibility determinations for NJ FamilyCare recipients have resumed for the first time since early 2020. Certain groups’ enrollment volumes increased substantially during the pandemic (mostly located within the Title XIX Parents and Children and the Affordable Care Act Expansion groups) and are expected to decline across FY2024 and into early FY2025 by close to 400,000 people. To ensure as many people as possible retain continuous coverage, DHS has been conducting outreach and streamlining processes. Efforts include automated renewals based on SNAP data, and funding 30-day extensions for those who did not immediately reply between June 2023 and May 2024. Residents who are no longer eligible for NJ FamilyCare may receive coverage through Get Covered NJ, and others may have employer-sponsored health insurance.

The FY2025 Budget

New Jersey has expanded access to quality, affordable health coverage through the Get Covered NJ, the State-based health insurance exchange, since its launch in October 2020. In the most recent open enrollment period, a record-breaking 397,000 consumers signed up for health coverage – a nearly 61 percent increase since the Murphy Administration took over operation of the marketplace for plan year 2021. Since 2020, the number of children under the age of 18 covered by health insurance through the exchange has increased by 75 percent. New Jerseyans enrolling in coverage continue to receive historic levels of financial help and the average amount of financial help for 2024 coverage is at a record high of \$566 per person per month, or \$6,792 per person per year. Nine in 10 people enrolling qualify for financial help to lower the cost of coverage – of whom 39 percent pay \$10 or less per month for coverage and 31 percent pay \$0 premiums.

Get Covered NJ – Enrollment

The Administration continues to advance comprehensive solutions across departments to address health care costs and affordability. With the continued implementation of the Health Care Affordability, Responsibility, and Transparency (HART) Program, the State remains focused on monitoring and developing efforts to mitigate the rate of health care cost growth. This budget will strengthen the Office of Health Care Affordability and Transparency and the HART Benchmark Program to ensure that comprehensive, cross market affordability work remains a priority for the State.

The Governor also signed a comprehensive prescription drug affordability and transparency package in July 2023, which is currently being implemented by Division of Consumers Affairs and the Department of Banking and Insurance. Together, these bills cap out of pocket costs in the State-regulated markets for insulin, epi-pens, and asthma inhalers; build oversight of and prohibit bad business practices that lead to increased consumer costs by Pharmacy Benefits Managers; and set up a comprehensive price transparency system across the drug supply chain.

Hospital Funding

In total, the FY2025 proposed budget includes a total of \$793.1 million in direct subsidies to hospitals. The Governor is proposing to increase direct hospital subsidies by shifting a portion of Charity Care funding to a new Medicaid outpatient hospital supplemental state-directed payment. This change increases funding to the hospitals by maximizing federal matching funds without the need for additional State appropriations.

Also included is \$336.5 million for the Graduate Medical Education (GME) program, including the Supplemental and Trauma components of the program. These funds offset a portion of the significant costs associated with the training of New Jersey’s next generation of physicians. A \$10 million increase for GME-Supplemental is included as part of the Charity Care transition and rebalancing described above.

The budget also funds the Quality Improvement Program (QIP) at \$210 million in State and federal funds. QIP rewards facilities that achieve measurable improvement across maternal care processes, reductions in maternal morbidity, improvements in connections to behavioral health services, and reductions in preventable hospital utilization for the behavioral health population.

**FY2025
Hospital Funding**
(In Millions)

Disability Supports and Services

The Murphy Administration's vision for equity and inclusion drives efforts to elevate the lives of individuals with disabilities, improve access to services, and strengthen the workforce serving persons with disabilities. Over the last year, the Department of Human Services (DHS) continued to serve over 26,500 individuals with developmental disabilities.

This budget proposes \$20.9 million to annualize the impact of wage increases approved in last year's budget for direct support professionals and supervisors, which were equivalent to about \$1.75 per hour, continuing the Governor's record investments in his first term to ensure that workers enter and remain in these important professions. It also provides nearly \$10 million for wage increases under the Personal Preference Program to match the change in the minimum wage. This year the Administration plans to invest in enhanced training for direct support professionals on topics including health and safety, effective communication, and trauma-informed care. These new training requirements are expected to improve client outcomes and reduce staff turnover.

The FY2025 budget also includes an additional \$31.8 million, for a total of \$67.8 million for the WorkAbility program expansion, which allows people with disabilities to continue their Medicaid benefits as their income and wealth rises, knocking down barriers to employment and full participation in society. WorkAbility eliminated asset limits in April 2023 and will begin to allow people with incomes over 250 percent of the Federal Poverty Level to enroll starting in 2024.

Aging Services and Long-Term Care

Governor Murphy remains committed to strengthening supports to promote the independence of seniors and persons with disabilities and helping them remain in their communities. This budget includes growth of over \$113 million to meet increasing needs for NJ FamilyCare's long-term care population, including an extra \$7.2 million to provide for wage increases for nursing home staff. \$4 million is recommended for long-term care reform and response in the Department of Health, to ensure that residents can continue to be served in the event that a facility faces distress that risks an abrupt closure or leadership transition. This budget also expands staffing for the Mission Critical Teams, which provide on-site visits to long-term care facilities to share best practices and improve conditions and care.

The Murphy Administration remains committed to making prescription drugs and other health care more affordable for New Jersey's seniors. Last year, the Governor signed legislation to expand the income limits for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) and Senior Gold prescription discount programs. The FY2025 budget includes \$82.5 million in total funding for these two programs, growing by \$12 million and over 16,000 projected participants since the previous year. The budget also includes \$3.5 million for the administration of the RetireReady NJ savings program, which was created by the New Jersey Secure Choice Savings Program Act. RetireReady will launch in 2024 and provide a new retirement option for private sector workers.

PAAD and Senior Gold Enrollment

Mental Health and Harm Reduction

Last year, the Department of Human Services implemented 9-8-8, the three-digit crisis response system that operates in partnership with five New Jersey call centers. This year, the Department implemented a comprehensive public awareness campaign for 9-8-8 and increased 9-8-8 Lifeline center capacity to meet the demand of New Jersey calls, which average approximately 5,000 per month.

Building upon continued State investments in initiatives like Naloxone365, the Governor was pleased to receive the first recommendations from New Jersey’s Opioid Recovery and Remediation Advisory Council, which will help guide the spending of the historic settlements with opioid manufacturers and distributors. Earlier this month, based on recommendations of the Advisory Council, the Governor announced plans to disburse \$95 million to expand harm reduction centers, addiction treatment access, community peer recovery centers, housing supports for individuals with substance use disorder, and more. Over time, these settlements will provide more than \$1 billion to support efforts in New Jersey to prevent and address the harms of the opioid epidemic.

Veterans' Affairs

Last year, the State budget provided funding for the Department of Military and Veterans' Affairs to establish a Veteran Service Office in each of the seven counties that previously lacked one. As of December, six of the seven had been established and the one remaining office will open in the coming months.

The Murphy Administration will continue to work with the Legislature on major structural reforms to the delivery of veteran services in New Jersey. The budget will strengthen our veterans' homes by providing an additional \$1 million for staff salaries. The Governor plans to allocate almost \$2 million in State Fiscal Recovery Fund dollars to replace beds, mattresses, and medical equipment in the veterans' homes, and requests \$21 million from the Debt Defeasance and Prevention Fund to pay for the costs of construction to convert double occupancy rooms to single occupancy rooms at the Menlo Park and Paramus Veterans' Memorial Homes. The federal government will cover 65 percent of the costs of these projects.

Law and Public Safety

Public Safety

The Governor's budget continues to support initiatives that keep communities safe, including supporting law enforcement personnel and community-led prevention programs. The Governor proposes to nearly double State funding for the Alternative Responses to Reduce Instances of Violence and Escalation (ARRIVE) Together program, which partners police officers with mental health professionals when responding to a person who is experiencing a mental health crisis. This approach has proven its ability to resolve crises without injury or arrests – since its inception there have been over 2,100 interactions with zero arrests, zero injuries, and virtually no uses of force. The additional funding will support the implementation of ARRIVE in more municipalities, as well as add capacity to the new and existing ARRIVE programs, in order to increase access for all residents across the state.

Governor Murphy's focus on public safety and reducing gun violence has contributed to a 33 percent decline in overall shootings and a 25 percent decline in gun homicides since 2021. In Paterson, the State's intervention has helped to drive the number of shootings down from 99 in 2022 to 66 in 2023, and overall violent crime down by 18 percent. To combat violent crime in ways that support both police and communities, this budget proposes to continue the Community

Based Violence Intervention and Hospital-Based Violence Intervention programs, to be funded from the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Fund.

This budget provides \$5 million towards the 167th State Trooper recruit class. This year, NJSP will continue efforts to increase diversity among the force, improve training opportunities, and ensure the New Jersey State Police have the equipment they need to be successful. This budget also makes new capital investments from the Debt Defeasance and Prevention Fund to bolster the quality of our criminal justice system. Recommended investments include \$120 million more for the balance of anticipated costs for the construction of a new State Police training facility (first funded in FY2024), \$60 million to construct a third Juvenile Justice Commission facility, and approximately \$18 million for a new State Police Southern Regional Laboratory.

End of Year State Trooper Count

Cannabis Regulatory Commission

Less than three years after the Cannabis Regulatory Commission’s launch in 2021, the agency announced the opening of the 100th dispensary in the state this February. Since 2018 there have been more than \$2 billion in legal cannabis sales. Much of the tax revenue generated from these sales can be used to support programs that compensate for and mitigate the harms of past cannabis criminalization on NJ communities, especially communities of color.

In that time, the Commission has expanded the medicinal cannabis program to over 1,300 participating health care providers, a 108 percent increase from 2018, who have served a cumulative total of more than 215,000 patients. It has also established the recreational adult-use cannabis industry, for which it has so far issued 121 licenses and seen 84 retail sites open.

The FY2025 Budget

Dedicated revenues from the cannabis industry are available to support the Commission’s partnerships with the Business Action Center and the EDA to support cannabis entrepreneurs, as well as a variety of violence prevention and intervention programs including those run through the Department of Law and Public Safety’s new Division of Violence Intervention and Victim Assistance.

Cannabis Revenues

(in Millions)

FY2021 through FY2023 represent actual revenues while FY2024 and FY2025 reflect projected figures.

Corrections, Parole, and Reentry

Although past criminal justice reforms have helped to substantially decrease the population of incarcerated people over the past decade, the population in State custody has flattened in the past few years. This budget provides important funding to the Department of Corrections to protect the health, safety, and dignity of corrections and parole officers, as well as incarcerated people and their families and communities.

Department of Corrections

Incarcerated Population

* As of January 2024, the overall Corrections population is 13,195.

The Administration is turning its attention to one factor that is preventing further declines in the prison population: technical parole violations. To begin the work of implementing reforms to the technical parole violation process, this budget includes funding for a consultant to help develop a tool the State Parole Board will use to weigh the seriousness of a violation and the individual's risk level. This tool will be used to determine appropriate intermediary sanctions that can limit the overuse of revocation, helping to limit the number of people who are unnecessarily sent back to prison. Governor Murphy also recommends more than \$1 million for two programs that will run in connection with the State Parole Board's Stages to Enhance Parolee Success Program. The recently launched Parole Assessment Center provides parolees who have re-offended or violated parole the opportunity to complete an intensified supervision program rather than immediately becoming re-incarcerated. Parole Aftercare and Transitional Housing is returning to provide emergency housing and reintegration services for parolees across the state. The budget also provides additional resources to the Office of the Public Defender—including to establish a holistic defense pilot and centralized forensic science unit—to ensure New Jerseyans' rights are protected.

The budget provides \$7 million for the NJLEAD (Locally Empowered Accountable and Determined) program through Cannabis Regulatory Enforcement Assistance and Marketplace Modernization Act revenues. The program provides grants to nonprofit community-based corporations or associations—many of which have also received direct appropriations through the Department of Community Affairs—with proven experience working with those who have experienced detainment or incarceration.

Last year, the Legislature provided \$90 million from the Debt Defeasance and Prevention Fund for the construction of a new correctional facility to replace the Edna Mahan Correctional Facility for Women and relocate its functions to a new, modern facility. The Department of Corrections has moved the entire minimum-security population to a renovated satellite site and has discontinued use of half of the original 110-year-old facility.

Professional Licensing

The various professional licensing boards in the Division of Consumer Affairs have been setting records for their productivity – 82,466 initial licenses, certifications, permits, and other approvals were issued in 2023, exceeding the previous high of 80,190 set in 2022. 90 percent of boards now complete initial review within a two-week timeframe, and 69 percent achieve this result in one week or less. To keep these numbers high and to comply with several new requirements designed to protect the public, especially pertaining to health care professionals, Governor Murphy's FY2025 budget ends the long-standing shift of boards' revenue to support State Police salaries, which was \$8.5 million in FY2024.

Voting Rights and Representation

Led by Lieutenant Governor Tahesha Way, the Department of State has consistently worked to expand access to democracy and make sure voters’ voices are heard. The Administration is using State Fiscal Recovery funds to invest in a voter education campaign to help educate voters and answer questions about upcoming elections, procedures, and requirements. In FY2025, the State will spend \$34.4 million on election management and coordination.

Transportation and Infrastructure

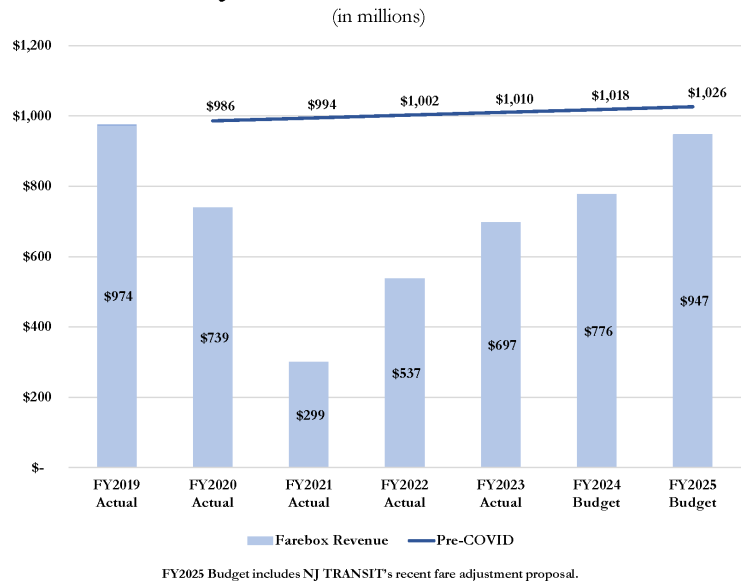

NJ TRANSIT

Governor Murphy’s FY2025 budget addresses the upcoming fiscal cliff at NJ TRANSIT by providing for a new, dedicated, and permanent funding stream to ensure that New Jersey’s commuters and tourists can get where they need to be. The Corporate Transit Fee will provide \$859 million in FY2026 funding, dedicated to support New Jersey’s mass transit system – at no additional cost to working families. Only the largest corporations earning \$10 million or more in profits, which are often the same companies that most benefit from the mobility of New

Jersey’s workforce, will be asked to contribute. Combined with the fare increases proposed last month – 15 percent compared to the 30 percent that inflation has grown since the last fare increase in 2015 – and cost-saving reforms within NJ TRANSIT’s operations, the agency will have the resources to overcome the “fiscal cliff” it faces in FY2026 due to the decline in farebox revenue since the pandemic and the expiration of COVID-related federal funding.

In FY2025, NJ TRANSIT is projected to spend \$3 billion, or nearly five percent over the FY2024 revised forecast and 30 percent over FY2019. Since the onset of the pandemic, NJ TRANSIT ridership has returned to approximately 80 percent of pre-COVID levels, with many peak period trips at or exceeding pre-pandemic levels. In addition, NJ TRANSIT has improved the customer experience through a variety of enhancements since 2018, including fully restoring the ranks of locomotive engineers by graduating 19 classes, delivering a completely redesigned NJ TRANSIT Mobile App, and graduating more than 2,300 new bus operators, along with many other improvements. It was also able to absorb all the bus service abandoned by private carriers that would otherwise have been eliminated, leaving commuters with no transportation option.

NJ Transit Farebox Revenue

NJ Transit Capital Expenditure

(in millions)

Amounts exclude Debt Service and Preventative Maintenance.

Under the Murphy Administration, the NJ TRANSIT Capital Program alone has grown from \$60 million in hard money contracts out on the street in 2017 to over \$6 billion presently, with an additional \$8 billion anticipated over the next three years. NJ TRANSIT’s Capital Program is now the second largest in the country behind only the MTA in New York. It also includes a General Fund payment of \$145 million, which when combined with other off-budget State support, is the second-largest annual State subsidy for NJ TRANSIT.

Transportation Capital Program

Governor Murphy’s FY2025 budget appropriates \$2 billion for the State Transportation Capital Program. The budget includes \$1.23 billion for critical investments in State, local highway, and bridge projects, and another \$767 million for NJ TRANSIT capital projects. Since 2018, the Department of Transportation has invested over \$13.8 billion to support maintaining local, county, and state highways in a state of good repair.

The FY2025 Budget

Motor Vehicle Commission

The Murphy Administration has remained committed to making the Motor Vehicle Commission (MVC) a national leader in customer service, efficiency, and inclusion. The agency continues its push to take 80 percent of its transactions online. The effects of inflation, health care and pension cost increases, and federal mandates mean that MVC will not be able to fully support its operations on fee revenue in FY2025, so this budget recommends \$50 million in General Fund support to ensure that drivers can continue to receive efficient service.

MVC In-Agency Transactions vs. Online and Mail: Calendar Years 2019 – 2023
(Transactions in Thousands)

Energy and Environment

Clean Energy and the Green Economy

In FY2025, the Clean Energy Program will have \$274 million to support programming, compared to an average of \$177 million under the Christie Administration. Governor Murphy will leverage the General Fund, Clean Energy Fund, and Regional Greenhouse Gas Initiative proceeds to reach his nation-leading goal of 100 percent clean electricity by 2035.

New Jersey continues to develop its capacity for offshore wind power generation. Last month, two of the largest offshore wind projects in the United States were announced. These projects will be built 40 miles offshore, creating nearly 4,400 good-paying, largely union jobs, and generating enough power for 2 million homes.

The State is moving forward on major electrical grid modernization initiatives. These initiatives will help address the impacts of climate change on energy reliability, and create over one thousand jobs over the next several years, nearly all of which would be union jobs. This budget provides \$40 million to grid modernization – including \$15 million from the General Fund and \$25 million from the Clean Energy Fund – which will unlock matched funding from federal Grid Resilience and Innovation Partnerships grants.

Thanks to a suite of solar incentive programs, this past year New Jersey celebrated achieving over 192,000 solar installations totaling over 4.7 gigawatts of installed capacity. These cumulative totals include over 19,000 installations. The federal Inflation Reduction Act provides even more incentives that New Jersey is quickly moving to turn into real projects.

Megawatts of Solar Capacity Installed

Cumulative MWdc installed includes approximately 1,458 MWdc of solar capacity installed between Calendar Years 2000 and 2014.

Electric vehicle (EV) adoption has surged during the past several years, and multiple departments across the Administration are enabling this expansion. Last fall, the Governor announced that New Jersey would adopt the Advanced Clean Cars II rule, and join a growing number of states that are requiring vehicle manufacturers to make EVs an increasing percentage of their new light-duty vehicle sales beginning in model year 2027. This year the Administration proposes transitioning from the sales tax exemption to targeted incentives. This budget would allocate an additional \$20 million to bolster the BPU’s popular Charge Up New Jersey program, which provides point-of sale subsidies for the purchase or lease of new EVs.

Green and Clean Energy - Electric Vehicles

The FY2025 Budget

Environmental Protection

The Department of Environmental Protection has increased transparency in how water infrastructure funds are being deployed by establishing the Water Infrastructure Spending Dashboard on the DEP’s Water Infrastructure Investment Plan website. This dashboard provides monthly updates on the use of funds along with descriptions of projects funded. Since FY2019, the Water Bank has provided significant funding to water infrastructure priorities including: approximately \$250 million in funding to projects that are replacing 37,500 lead service lines to New Jersey residences and businesses; approximately \$525 million to 42 projects that reduce the pollution caused by combined sewer overflows in our urban and overburdened communities, and approximately \$142 million to 17 projects that will remove forever chemicals from our drinking water supplies. The Water Bank also rolled out NJ-TAP (New Jersey Technical Assistance Program) in FY2023 to assist disadvantaged communities to access funding through third party providers with program navigation, financial and needs assessments, community engagement, and engineering services.

Water Infrastructure Spending (In Millions)

FY2017 through FY2023 represents the amount that was expended while FY2024 represents amount that was budgeted.

Parks Investment

(\$ Millions)

FY2018 through FY2023 represent the amount that was expended while FY2024 and FY2025 reflect projected figures.

With this budget Governor Murphy recommends \$70 million from the Debt Defeasance and Prevention Fund for major preparation work in New Jersey’s major urban state parks, Liberty State Park and the Garden State Greenway. Overall, \$264 million is included for ongoing support of the State parks system, representing dramatic increases over previous years.

Managing wildlife, especially in New Jersey’s suburban and rural areas, is also a priority for this Administration. The FY2025 continues prior years’ investments in bear-proof trash receptacles to prevent dangerous interactions. The budget also provides \$160,000 for second year of deer management grants to help localities develop management plans. This program will launch this spring.

A significant portion of DEP’s funding will come from constitutionally dedicated Corporation Business Tax (CBT) revenue supplemental appropriations that have been provided separately from the Governor’s budget each year since FY2017. These dedicated funds account for about \$193 million in FY2024 adjusted appropriations, and the removal of this funding in FY2025 appears to result in a large reduction for year-over-year comparisons. Similar supplemental appropriations will be made in FY2025 to continue to support the constitutionally dedicated programming.

Agriculture

The Department of Agriculture maintains its mission to promote, protect, and serve the Garden State's diverse agriculture and agribusiness industries. This year, the Department of Agriculture will receive \$178.1 million, in addition to supplemental CBT appropriations. This budget includes funding for several new staff to support this work, including a veterinarian to oversee field services and a medical technologist to support clinical pathology work.

State Operations and Initiatives

Health Benefits

In FY2025, the State expects to spend approximately \$6.0 billion on health benefit payments for those active and retired enrollees for whom the State is responsible. The Administration will continue to work to maintain the highest possible quality of care at the lowest possible costs. In light of rising cost pressures, the Governor will work with his partners in labor and the Legislature to come together to find responsible, sustainable, and fair reforms to public health benefits to produce new State savings.

Equity and Inclusion

During the last few months, Governor Murphy signed into law several bills that will make real progress to reducing racial inequities. The Seabrooks-Washington Community-Led Crisis Response Act included \$12 million for grants to municipalities and community-based organizations to operate trauma-informed, community crisis response teams. P.L.2023, c.242 provides \$10 million for a three-year sickle cell disease pilot program that will take meaningful steps toward removing barriers to care for people with sickle cell disease in New Jersey. Another enactment will require the State to provide vital documents and translation services in at least seven most common non-English languages – and this budget includes \$1 million for the Department of Human Services to begin to implement its Language Access Plan, which will serve as a model for other agencies as the Statewide requirement comes into effect.

In January, the Governor and Treasurer announced the release of a comprehensive statewide disparity study to examine public contracting opportunities for Minority and Women-Owned (MWBE) businesses. This was the State's first comprehensive study since 2005, and it covered more than 1.2 million records and 240,000 contracts from over 60 contracting agencies, state colleges and universities, authorities, and commissions. The study highlighted stark inequities in the way that New Jersey chooses vendors to provide goods and services, professional services, and construction. This Administration is committed to enacting legislation and meaningful procurement reform to address the disparities identified by the study. Procurement reform will not only benefit businesspeople from historically marginalized communities, but in time will also benefit the State budget by making procurement more competitive.

This budget continues several initiatives begun last year designed to address the causes of and provide remedies for the long-standing race-based wealth disparities in New Jersey. Many of the proposals were advanced by the work of the Wealth Disparity Task Force, established by Executive

Order No. 262, and include down payment assistance for first-generation homebuyers, establishing employee stock ownership opportunities, eliminating public defender fees, and erasing medical debt.

Under Executive Order No. 319, each principal Cabinet department has designated a senior-level employee to perform the functions of Chief Diversity Officer to help guide the departments as they evaluate their workplace culture and measure the impact of programs and services. The Equity and Sustainability Advisory Council was established to develop a statewide strategic plan that improves outcomes and aligns the equity work across State government.

Innovation

The Office of Innovation (OOI) has been critical to major improvements in the State's business registration processes, information portals, and resident services. The office's work has also saved taxpayer money – improvements to the Department of Labor's identification verification processes have already recouped the initial labor cost. Similarly, improvements to NJDOL's call centers and the ANCHOR call center are already providing better service and saving nearly \$1 million annually.

This year, the Governor hopes to codify into permanent law the Office of Innovation. As an independent agency, OOI will continue New Jersey's successful track record of using digital technology and agile development processes to further streamline, simplify, and improve how New Jersey delivers benefits and services to residents and businesses.

To ensure that all residents have access to government technology, BPU's Office of Broadband Connectivity will also begin distributing over \$300 million in federal Broadband Access Equity and Deployment (BEAD) and Capital Projects Fund grants to broadband service providers and other awardees.

Capital Projects

This year, the Administration proposes another substantial investment of \$83.7 million, excluding all federal and dedicated funds, to ensure that State facilities are safe and functioning. This investment will fund critical projects at State facilities such as psychiatric hospitals, correctional institutions, and developmental centers. Over the past several years, the Murphy Administration has significantly increased funding for State capital needs, addressing the costs of years of underinvestment.

Federal Funds Overview

Fiscal Year 2025 will see major shifts in the State and local budgets to reflect the expiration of most pandemic-related aid from the federal government, including the State Fiscal Recovery Fund (SFRF), enhanced Medicaid matching funds, support for public transportation, aid to child care providers, and more. Governor Murphy's commitment to maximizing the impact of flexible federal funding on New Jersey's recovery without creating unsustainable commitments for the State budget will allow New Jersey to responsibly transition away from pandemic aid.

In 2021, New Jersey received \$6.2 billion from the American Rescue Plan's State Fiscal Recovery Fund, which federal law requires to be obligated by the end of 2024 and expended by the end of 2026. Last year, the Governor and Legislature worked together to allocate all remaining uncommitted money from the fund. In the event that any amounts from prior allocations remain unspent, those amounts will be reallocated before the deadline.

The FY2025 Budget

SFRF Allocations

Department	Program	Estimated Spend
PEOPLE		
Pandemic Response		
Community Affairs	Eviction and Homelessness Prevention Program	\$ 798,000
Education	Special Education Services/County Special Service Schools	190,000

FY2024 and FY2025 Revenues

Economic Performance and Outlook

In 2023, New Jersey's economy experienced stable growth. The state's Gross Domestic Product (GDP) – a broad measure of economic output – showed moderate growth overall and employment levels continued to rise, surpassing pre-pandemic levels in most industries. Price inflation continued to decline over the course of the year. Higher interest rates, intended to tame inflation and slow economic activity, have plateaued since the summer of 2023. However, these rates continue to restrict economic activity in some sectors, most notably the housing market. As 2024 begins, the near-term economic outlook for the state and nation is for continued moderate growth, with uncertainty related to when the Federal Open Market Committee (FOMC) will start to lower interest rates and encourage spending and investment.

The state's real GDP grew at a seasonally adjusted annual rate of 4.8 percent in the third quarter of 2023. Combined, over the first three quarters of 2023 New Jersey's GDP grew at a 1.8 percent rate.¹

New Jersey's labor market proved resilient in 2023. Following gains of 265,600 jobs in 2021 and 129,700 jobs in 2022, preliminary estimates suggest 69,600 jobs were added in 2023. Employment rose in nine out of twelve months, adding jobs in each of the final five months of the year. This represented a sustained recovery from 2020, when employment fell by 303,600 net jobs, including an unprecedented initial decline of 730,200 jobs at the start of the pandemic in March and April 2020. Payroll employment grew by an average of 6,100 jobs per month over the first half of 2023 and grew by an average of 5,500 jobs per month over the second half of the year.

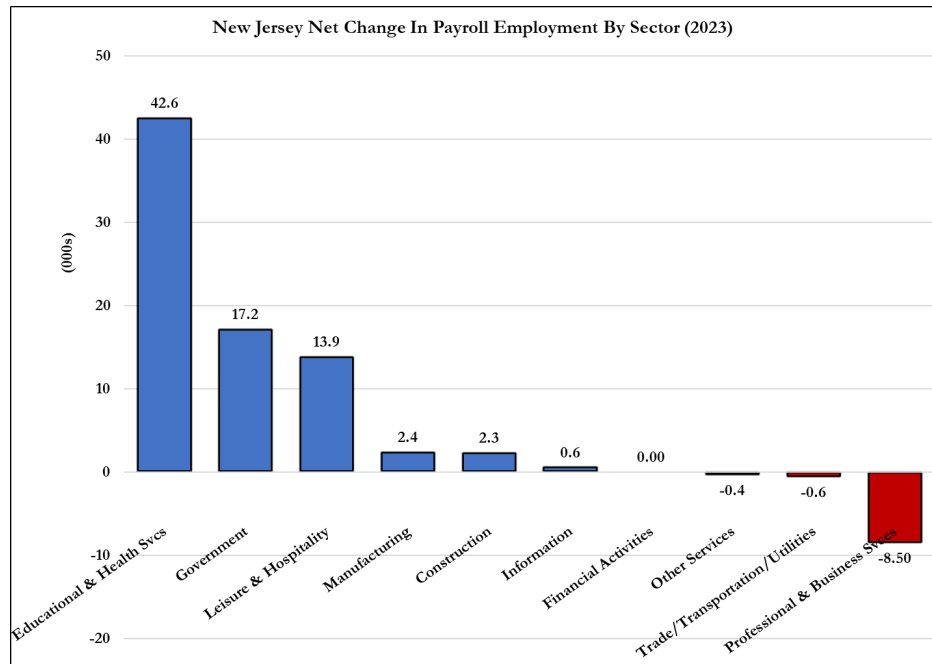

By the end of 2023, New Jersey had 137,200 more nonfarm jobs than prior to the COVID-19 pandemic, rising 3.2 percent from February 2020 to December 2023. This figure was higher than the change in employment compared to pre-pandemic levels in New York (-1.1 percent), Pennsylvania (1.6 percent), and Connecticut (-0.1 percent).

New Jersey's December 2023 labor force participation rate of 64.9 percent was 0.9 percentage points higher than the pre-pandemic level of 64.0 percent, but it softened in the fall of 2023 after reaching a peak of 65.5 percent in August 2023. The State's December 2023 rate was 3.3 percentage points higher than that of New York (61.6 percent), 2.8 percentage points higher than Pennsylvania (62.1 percent), and 0.8 percentage points above Connecticut (64.1 percent). The state's unemployment rate increased 1.5 percentage points over the course of the year, rising to 4.8 percent in December 2023 as the number of unemployed persons rose quicker than the labor force.

¹ Fourth quarter State GDP data is not released until March 2024.

Revenue Outlook

Job growth in 2023 was concentrated in three industries as other sectors experienced low growth or declines in employment. The only sectors that added more than 2,500 jobs over the course of the year were Educational & Health Services, Leisure & Hospitality, and Government. These were three industries in particular that had a more sluggish bounce-back from the pandemic. Professional &

Business Services lost 8,500 jobs over the course of the year, while Other Services and Trade, Transportation & utilities each lost less than 1,000 jobs. Still, employment in these sectors remained well above pre-pandemic levels at the end of the year. The only sectors to not reach pre-pandemic employment levels as of December 2023 were Leisure & Hospitality (down 400 jobs) and Other Services (down 2,800 jobs).

New Jersey wages and salaries rose 5.3 percent over the first three quarters of 2023 with personal income growing by 4.9 percent. Weaker growth in the professional services industry caused New Jersey's wage and salary growth to lag the national average, but personal income growth outpaced the nation.

U.S. personal saving as a percentage of disposable personal income has fluctuated sharply in recent years. From a pre-pandemic level of savings in the mid-seven percent range, savings rose to a high of 24.5 percent spurred by federal economic impact payments and limited spending options. The savings rate subsequently hovered around 3.0 percent in 2022 as households adjusted to high price inflation and increased to an average of 4.5 percent in 2023.

The housing market continued to slow from 2022 into 2023 amidst historically high mortgage interest rates and elevated home prices. The average U.S. 30-year fixed rate mortgage in December 2023 hovered over 6.0 percent, double its 3.0 percent level of December 2021. The median sales price for a single-family home in New Jersey eclipsed \$500,000 in 2023, rising 6.3 percent from 2022, when prices rose 8.7 percent from the year prior.

According to New Jersey Realtors data, existing-home sales started to weaken near the end of 2021 and total closed sales fell 17.8 percent in 2022, matching levels last seen in 2015. Sales continued to decline in 2023, matching levels not seen since 2012-2013, while both the inventory of homes for sale and the affordability index reached their lowest levels since at least 2010.

Price inflation continued its decline from 2022’s highs, as the national consumer price index (CPI) rose 3.4 percent year-over-year in December 2023, representing a decline of 3.1 percentage points from January 2023’s level of 6.5 percent. Core CPI, which excludes food and energy items, rose 3.9 percent year-over-year in December. This represents a sustained slowing of inflation from its 9.1 percent peak in June 2022. Inflation in the metropolitan area containing much of northern and central New Jersey has generally been more subdued than national inflation, as regional year-over-year CPI grew 2.9 percent in December 2023. Regional core CPI was up 3.4 percent in December. It is generally anticipated that the CPI will fall below 3.0 percent during 2024 and average in the mid-two percent range for the year.

The economic outlook has brightened recently for both New Jersey and the United States, as interest rates are thought to have peaked and stubbornly high inflation continues to recede. Members of the FOMC estimated real (inflation-adjusted) GDP in the U.S. to grow 1.4 percent in 2024 off of a surprisingly strong 2023, according to their December 2023 projection. Economists surveyed by the Wall Street Journal in January 2024 forecasted real GDP growth of 1.0 percent for the U.S. in 2024, and preliminary estimates show U.S. GDP rose 2.5 percent in 2023.

The revenue forecasts presented on the following pages assume the forecasting consensus for moderate economic growth with lower price inflation and declining interest rates will continue in 2024 and 2025.

FY2024 and FY2025 Revenues

In New Jersey and most other states, the pandemic and post-pandemic years saw substantial volatility in revenue collections. After an initial pandemic-induced revenue decline in FY2020, State revenues surged in FY2021 and FY2022, followed by another decline in FY2023. Revised FY2024 revenues are now projected to be relatively flat with the prior year, up 0.3 percent to \$52.2 billion.

Overall revenue collections through the first seven months of FY2024 have been soft, slightly below the low growth targets certified in the Appropriations Act last June. The revised total revenue estimate for FY2024 is down \$502.9 million, or about 1.0 percent below the June certification. The two largest forecast adjustments are for the Gross Income Tax (GIT), which is reduced by \$789.2 million, and Investment Earnings, which is increased by \$388.0 million. These and other revenue sources are discussed in greater detail below.

FY2025 revenues are forecasted to rise to \$54.1 billion, up 3.6 percent from the FY2024 revised forecast. The relative stability in projected revenues is consistent with the growing consensus that the U.S. economy is likely to achieve a “soft landing.” Economic forecasters generally expect moderating price inflation close to the FOMC’s long-run targets, declining interest rates, steady growth in GDP, rising wages, and employment stability. For New Jersey, budgeted revenues are expected to grow near their long-run average rates, and in line with a stable economy.

Gross Income Tax

The GIT, the State’s largest revenue source, is susceptible to volatile swings in collections. Last fiscal year’s collections plummeted in the spring, reversing two years of exceptional growth. April final tax payments alone dropped by \$1.6 billion, down 35.8 percent from April of 2022. The large decline in 2022 stock markets and the effect of rising interest rates on the real estate market helped generate a 55.0 percent slide in net capital gains income. Additionally, refunds surged by about 15.0 percent in FY2023 as taxpayers reconciled overpayments and adjusted for new and increased Pass-Through Business Alternative Income Tax (PTBAIT) credit utilization. As a result, higher-income taxpayers reduced their quarterly estimated payments, which fell by more than 20.0 percent last April and June. FY2023 GIT revenues declined by \$1.9 billion, down 9.3 percent from the prior year, despite strong growth of 5.0 percent in wage withholding collections, the largest component of the GIT.

Revenue Outlook

FY2024 GIT collections have been an echo of the underwhelming spring period. Overall collections are down 3.6 percent through the end of January, driven by 20.0 percent declines in both quarterly estimated payments and final Tax Year 2022 extension payments, and a 32.3 percent jump in refund payments. Steady growth in wage withholding of more than five percent has again been insufficient to offset the ongoing weakness in these other GIT components.

Gross Income Tax (In Billions)

The revised FY2024 GIT forecast of \$18.7 billion is \$789.2 million below the certified amount from the Appropriations Act. The revised forecast anticipates some improvement for the remainder of FY2024 as tax filings shift away from Tax Year 2022, toward Tax Year 2023. Withholding collections are expected to continue growing, as wages are widely forecasted to increase at modest rates. Additionally, the strong stock market performance in 2023 bodes well for capital gains income and April final tax payments, while also spurring a potential return to growth in quarterly estimated payments. However, the Federal Funds rate remained above five percent for much of 2023, which could dampen other sources of gains realized outside the capital markets as well as business profits.

At least two factors will contribute to higher refund activity this spring: 1) the federal government has increased the inflation adjustment for Earned Income Tax Credits (EITC) that will flow through to New Jersey's EITC benefit; and 2) New Jersey's expanded Child Tax Credit, which is estimated to reduce net tax revenues by providing increased taxpayer benefits of \$123.2 million. The relationship between GIT liabilities and PTBAIT credits remains a component of the current and future forecasts.

The substance and forecast of the PTBAIT is discussed further below, but PTBAIT credits, which are applied against GIT and other tax liabilities, were a factor in larger than anticipated Tax Year 2022 refund claims and subsequent adjustments to taxpayers’ quarterly estimated payments. The timing of these claims and adjustments affect both FY2023 and FY2024. The GIT could continue to see refund activity fluctuate from year to year in either direction, which increases the overall volatility of the tax.

FY2025 should see a return toward modest GIT revenue growth, closer to long-run historical patterns. With most GIT components expected to grow, the FY2025 forecast of roughly \$19.4 billion yields growth of \$646.3 million, or 3.5 percent above the revised FY2024 forecast. Steady economic performance and positive wage and income growth is expected to support moderate revenue growth.

Sales Tax

The Sales and Use Tax (SUT) is the State’s second largest budgeted tax revenue. After a remarkable two-year period of surging SUT collections, FY2024 receipts are up a more modest 0.7 percent year-to-date through January. Stretching back to the autumn of 2022, SUT revenues have grown by less than the rate of regional core consumer price inflation in 13 of the past 15 months. Consumers are spending, but cautiously, and less so on taxable durable goods while more so on services such as travel, which are less subject to the New Jersey SUT. Accordingly, the revised FY2024 forecast of about \$13.2 billion is \$113.7 million less than the certified amount from the Appropriations Act, but still assumes growth over FY2023.

Sales Tax

(In Billions)

Sales Tax excludes the tax on energy.

Revenue Outlook

Major economic forecasting firms generally expect the economy to grow slowly in 2024 and 2025, with modest or low growth in wages, employment, and retail sales. The State forecast of about \$13.7 billion in SUT collections in FY2025 is up 3.7 percent from FY2024, assuming consumption keeps pace with price inflation, plus two proposed tax policy changes.

First, the Administration proposes ending the school supplies SUT holiday, which is estimated to increase annual revenue collections by \$35.0 million. Also, the Administration proposes a three-year phase out of the SUT exemption for the purchase of electric vehicles (EV), worth an estimated \$70.0 million in the first year. This exemption was enacted in 2003. Personal vehicles have long represented a significant portion of the sales tax base, and with new registrations of EVs approaching 10 percent of new vehicle registrations, it is responsible to acknowledge these vehicles as a regular part of the market. To ensure that people with modest incomes continue to have access to electric vehicles, the budget appropriates \$20 million more to the Charge Up New Jersey program for additional point-of-sale rebates.

Lastly, the revenue forecasts also separately display SUT Energy Tax Receipts and SUT Sales-Energy collections. These energy-use related collections are received through the State's public utilities. In recent years, as energy prices rose, so too did these tax collections, which raised about \$1.0 billion during FY2023. However, the forecasts assume a decline in natural gas prices and less energy utilization due to warmer average winter temperatures. Much of the revenue collected from these taxes is annually dedicated to municipalities via Energy Tax Receipts Property Tax Relief Aid, so only the undedicated SUT Sales-Energy component is expected to decline. Accordingly, the FY2024 revised estimate for SUT Sales-Energy of \$77.5 million is \$170.2 million below the amount certified last June. For FY2025, a further reduction to \$63.6 million is expected.

Corporation Business Tax

The FY2024 Corporation Business Tax (CBT) revised revenue projection of \$5.1 billion represents a decrease of 6.9 percent below FY2023 levels. While the FY2024 Appropriations Act assumed a 3.7 percent decline in certified CBT revenue from the prior year, actual year-to-date collections through the end of January are down 5.3 percent as refund claims have jumped substantially. For the first seven months of FY2024, refund payments of \$897.5 million soared above the same period last year by \$350.0 million, up 63.9 percent. In sharp contrast, between FY2014 and FY2021, the highest level of refund payments through January was \$333.8 million. The refund surge is a function of multiple factors, including prior overpayments, claims for various corporate tax credits for recent as well as past privilege periods, and increased utilization of prior net operating losses. Refund payments are expected to continue at historically high levels for the remainder of FY2024.

Of note, the first impact from the expiration of the CBT surtax, which was imposed on businesses with allocated net income greater than \$1.0 million, is factored into the FY2024 revised forecast as a reduction in April and June quarterly estimated payments. The expiration is estimated to reduce spring CBT collections by \$333.1 million. Nearly 2,400 corporate taxpayers will benefit from the expiration.

Corporation Business Tax

(In Billions)

Corporation Business Tax excludes the tax on energy as well as the Corporate Transit Fee, which is new for FY2025.

FY2025 CBT revenue collections of nearly \$4.4 billion are projected to fall from FY2024 levels, declining \$771.3 million, down 15.0 percent. Again, the decrease in FY2025 is primarily due to the full impact of the expiration of the CBT surtax on corporations, which is estimated to reduce CBT revenues by an additional \$800 million from FY2024. While baseline collections decline due to the surtax change, economic forecasters anticipate an improving corporate profits outlook for 2024 and 2025, which partially mitigates the year-to-year decline.

In addition, beginning with FY2025, the Administration is proposing a new Corporate Transit Fee on corporations with income over \$10.0 million. Affecting about 600 of the most profitable CBT entities, this dedicated revenue will help sustain the economically vital commuter network run by NJ TRANSIT that benefits employees and employers alike. Estimated to initially raise \$1.0 billion² in FY2025, the Corporate Transit Fee could raise between \$800 million and \$900 million in annual revenue.

² The \$1.023 billion FY2025 total includes \$818.0 million in baseline revenues and \$205.0 million in anticipated one-time catch-up payments related to the implementation at the start of Tax Year 2024. The proposed tax rate of 2.5 percent is applied to corporation income when adjusted net income exceeds \$10.0 million.

Other Major and Miscellaneous Tax Revenues

In addition to the three largest revenues discussed above, the FY2025 Budget includes forecasts of many other revenue sources. Among the most significant are the following:

Pass-Through Business Alternative Income Tax (PTBAIT). In effect since 2020 following enactment of legislation, PTBAIT allows members of entities such as partnerships, S corporations, and LLCs to elect to pay income taxes at the entity level, rather than at the personal level, so those taxes may be deductible for federal tax purposes. In FY2021, the first fiscal year during which PTBAIT revenues were collected, PTBAIT generated roughly \$2.0 billion in revenue. In FY2022, PTBAIT revenue doubled to almost \$4.0 billion.

The growth witnessed during the first two fiscal years of PTBAIT was primarily the result of two factors: 1) surges in taxpayer elections and payments, specifically during the month of December; and 2) taxpayers realizing significant growth in business income during Tax Year 2021 (FY2022).

PTBAIT collections have largely stabilized as early electors of the tax have transitioned to making regular quarterly estimated payments and final payments. Collections in FY2023 were nearly identical to those of FY2022. For FY2024, the Appropriations Act forecast anticipated slight growth relative to FY2023, as profits were expected to moderate, but elections would continue to increase. However, PTBAIT collections are up 11.3 percent year-to-date through the end of January, outperforming the earlier forecast. In FY2024, revised PTBAIT revenues are projected to be about \$4.3 billion, up \$180.2 million or 4.3 percent from the total certified in the Appropriations Act.

PTBAIT revenue is projected to increase slightly in FY2025 to \$4.5 billion, an increase of \$139.1 million or 3.2 percent, as more taxpayers continue to elect to pay the tax for the first time, as taxpayers that made elections for the first time in the prior year distribute their payments across all quarterly and final payment months, and under the assumption that profits continue to grow but at a slower pace.

Realty Transfer Fee. The FY2024 forecast of \$428.2 million is unchanged from the original certification. Realty Transfer Fee collections have fallen for more than a year, reflecting a challenging housing market facing high interest rates and low supply. But this decline was anticipated. On the other hand, the FY2024 forecast for the Assessment on Real Property Greater than \$1.0 million of \$198.4 million is \$4.5 million above the certification as elevated home prices have caused more sales to be subject to this assessment. FY2025 revenue collections are projected to rise slightly by 1.4 percent to \$434.3 million for the Realty Transfer Fee, and to \$199.8 million for the Assessment on \$1.0 million properties.

Transfer Inheritance Tax. FY2024 revenues are revised upward to \$528.2 million, an increase of \$23.7 million from the amount certified in the Appropriations Act. Year-to-date collections are down from FY2023 levels, but not by as much as had been forecasted in the June certification. FY2025 revenues are expected to rise to \$540.9 million. Collections from this source are related to personal property values and capital markets. Capital markets fell sharply in 2022 but rose again in 2023. The impact of these patterns on inheritance tax revenue will lag as it can take up to eight or nine months for transfers to settle.

Cigarette Tax. Cigarette Tax collections have declined recently by more than their historic downward trend. Total revenues are estimated to be about \$10.1 million below the certified level, for an on-

budget total of \$32.6 million in FY2024. On-budget collections for FY2025 are projected to fall to only \$6.8 million, a decrease of about \$25.8 million. The vast majority of cigarette tax revenues are dedicated to certain off-budget accounts, and in future years all Cigarette Tax collections will likely be required to support the off-budget dedications.

Alcoholic Beverage Tax. Alcoholic Beverage Tax collections rose during the pandemic, reflecting a shift in consumer preference for certain beverages subject to the tax as well as an increase in overall sales. The tax is imposed on quantity sold rather than the sales price and varies depending on the type of alcohol, with the liquor component generating a significant portion of overall revenue. Collections have stabilized in FY2024 and the \$145.9 million estimate is down only a fraction from the certified amount. For FY2025, collections are projected to grow slightly, to \$149.7 million. Of note, the FY2025 forecast does not explicitly include any impact associated with recent changes to the State's liquor licensing laws via P.L.2023, c.290, but Alcoholic Beverage Tax revenues stand to benefit from any additional sales that may occur as a result.

Casino Revenue Fund. Collections have remained strong in FY2024, up 16.2 percent year-to-date through January. In particular, online wagering and sports betting activity continue to grow. The revised FY2024 forecast of \$557.5 million is \$30.8 million above the certified level. Revenues are projected to grow to \$596.4 million for FY2025, up 7.0 percent.

Investment Earnings. FY2024 revenues include almost \$1.1 billion in investment earnings, up \$388.0 million from the certified forecast last June. FY2025 revenues anticipate investment earnings will moderate back down to \$721.2 million, a year-to-year decline of \$339.7 million. Higher State balances and higher interest rates contribute to the FY2024 estimate, but State balances and interest rates are expected to decline in FY2025.

Other Revenues. As a way to mitigate the impact of new warehousing development on traffic and road quality, the Governor proposes a \$1 truck traffic excise fee that would be imposed on warehouses throughout New Jersey based on the number of truck trips. The FY2025 budget assumes \$10 million of new revenue for this proposal. To avert the need for further spending reductions, the budget assumes the adoption of modest increases to fees charged by the Bureau of Securities, firearm permit and license fees, and raises the HMO assessment from 5 percent to 6 percent.

(b) The FY2024 Tuition Aid Grants amount reflects a reallocation of funding to Summer Tuition Aid Grants.

(c) The FY2024 Primary Care Practitioners Loan Redemption amount reflects a reallocation of funding to Nursing Faculty Loan Redemption.

(d) Supports fringe benefits of State-supported employees at Senior Public Institutions and Community Colleges.

**SUMMARY OF APPROPRIATIONS;
MAJOR INCREASES AND DECREASES**

This table summarizes the major increases and decreases in the fiscal year 2025 budget and is organized by category.

Categories of recommended appropriations are defined as follows:

State Operations consists of programs and services operated directly by the State government. The largest single component is for the salary and benefits of State employees. This portion of the budget is subject to the spending limitations imposed by the Cap Law.

Grants-in-Aid appropriations are for programs and services provided to the public on behalf of the State by a third party provider, or grants made directly to individuals based on assorted program eligibility criteria. The NJ FamilyCare program, Tuition Aid Grant Program, Affordable New Jersey Communities for Homeowners and Renters (ANCHOR), and funding for New Jersey Transit and State colleges and universities fall into this category.

State Aid consists of payments to or on behalf of counties, municipalities, and school districts to assist them in carrying out their local responsibilities. This category of expenditure includes school aid and municipal aid. It also includes funding for county colleges, local public assistance, and county psychiatric hospital costs.

Capital Construction represents pay-as-you-go allocations and debt service for construction and other infrastructure items.

Debt Service payments represent the interest and principal on capital projects funded through the sale of general obligation bonds.

The Annual Tax Expenditure Report

Pursuant to P.L. 2009, c.189, the State must prepare, in time for the Governor's annual Budget Message, a report of all State tax expenditures made in the last completed fiscal year, the current fiscal year, and the fiscal year to which the Budget Message applies.

This year's Tax Expenditure Report is the fifteenth the State has issued. It includes expanded information on the objective or purpose of many tax expenditures and also includes several new categories of tax expenditures that were not part of previous reports.

The report may be accessed at:

<http://www.state.nj.us/treasury/taxation/taxexpenditurereport.shtml>
