6.	Contract/Program Person/Title	Ronald Hovey, Chief Procurement Officer (Acting)	
7.	Brief Description, Purpose and Rationale of Project/Program	Provide Integrity Oversight Monitoring Services for the Delco Lead Safe Haven Inspection and Storage Facility Project, including: - <b>Design of the Delco Lead Project:</b> NJT01045 - Jacobs Engineering has been retained to perform preliminary design, final design and construction support services for the Delco Lead Project. - <b>Construction Management (CM) Services:</b> Urban Engineers / Tishman Construction Corporation was retained for CM services for the General Construction Contract 1 and General Construction Contract 2. - <b>Construction Contracts:</b> This project involves construction of the two new tracks, catenary structures, associated switches and signal work for DELCO Lead emergency storage, as well as S&I facility for routine inspection. It is anticipated that the project construction will be completed in phases. The first contract GC-01 is for site work, and is under Procurement at this time. The contract GC-02 will mainly be for the railroad infrastructure along DELCO Lead.	Based on the current value of the federally-funded component for GC.01 construction contract falling below the threshold for monitoring, this contract is no longer under the IOM scope of work.  Additionally, during the October 11, 2023 NJ Transit Board of Directors meeting, NJ Transit authorized to amend the current construction management services contract with the joint venture team of Urban Engineers / Tishman as well as the design contract with Jacobs Engineering. IOM is awaiting further direction regarding the anticipated change order for Urban Engineers / Tishman which may result in the contract monitoring falling within the IOM scope of work.
