**DPCMH SANITAS PRESENTATION**

Binsy Francis, of Horizon introduced Dr. Andrew Granus from Sanitas, who provided a background of Sanitas. Dr. Granus stated that there are three locations in New Jersey: Union City, Belleville and Elizabeth. He stated that there are approximately 40,000 members close to the three locations, and out of the 40,000 members 71% of these members have not had wellness visits in the past 12 months.

Dr. Granus stated that two of the locations are in hospitals. He stated that Sanitas is not an Emergency Room, but is capable of performing services found in an ER, for example IV fluids for a child. He stated that the benefit of being located in a hospital is that a patient can easily be transferred into the hospital if necessary.

Kevin Kelleher asked if Horizon is bringing Sanitas for approval as a third provider under the DCPMH program. Mrs. Deacon stated that this was a presentation only. She stated that the original resolution was not specific to the two current DCPMH providers. Committee member Ridolfino asked if the need for a third provider was due to geographical needs, or due to the other providers meeting the maximum capacity of patients. Mrs. Deacon confirmed it was due to geographical needs.
PRESENTATION: MEDICARE SUPPLEMENT vs MEDICARE ADVANTAGE POPULATION

Mrs. Deacon stated that a small number of members have opted out of the Medicare Advantage (MA) plan. Sixteen percent of the SEHBP population have elected to stay in NJDirect 1525, she stated that in 2018 there were 180 members in this plan, in 2019 there were 1,900 members. She stated that the utilization of out-of-network services in this plan has gone up as well. Chairperson Kelleher asked if this trend was a result of not having a control mechanism over the spend. Mrs. Deacon confirmed, the MA plans are more managed, where the supplemental plans are unmanaged from the healthcare spend and outcome perspective.

Chairperson Kelleher asked if the supplemental plans were eliminated it could potentially save the State and its members approximately $34 million. Chairperson Kelleher asked what the change to the rates would be. Mrs Deacon stated she would ask Aon to provide the analytics on this change.
