Q&A POSTED 09/01/21

Q. Question 3.3 is too general making it very hard to answer. Can you give a timeframe/narrow it down?

Q. In Question 3.3, what are you looking for in the table? Just the numbers of sales professionals?

A. *At a minimum, in response to Question 3.3, we would like to see tables displaying the number of offices and sales professionals for both retail and institutional clients. If you would like to present other/additional information relating to your firm's distribution network that is fine as well (additional information does not need to be in a table).*
