RICHARD J. CODEY
Acting Governor

JOHN E. MCCORMAC, CPA
State Treasurer

AMENDMENT #3 T-0557 SOLICITATION #37541

To: All State Agencies
Date: 08 August 2005
From: Purchase Bureau
Jay Riches
Subj: Contract for Temporary Nursing Services - Statewide
Contract Period: 17 June 2005 to 16 June 2008

1. The amendment is being issued to provide step by step procedures to be followed when temporary nursing services are required by a facility. NOA Text Section 3.9 Order Procedures states as follows:

"Whenever a Using Agency/facility requires temporary nursing services that are known, whether it be long term or immediate need, an e-mail will be sent to all contracted vendors for the appropriate region for the required job classification at the same time.

This e-mail will provide a response cut-off time. If more than one contractor responds by the cut-off time, then the lowest cost contractor will be used first. For immediate need notice, the contractor who responds first that the request can be filled will be awarded the work.

This cut-off response time may be adjusted in accordance with the advance time frame of the requirement. For example - if a requirement is known a week in advance the response time might be one (1) day, whereas if it is only known one (1) day in advance the response time may only be one (1) hour. The response time will be determined solely by the Using Agency in accordance with what is reasonable under the circumstances. "

2. Step 1 – Facility determines need.
Step 2 – Facility determines correct region and job category - also known as line item. Region is determined by location of the facility.
Step 3 - Facility sends email out to all vendors listed for that particular line item advising of the requirement. If it is a planned need for the future, then a time for response is included in the email. After the response time has expired, the facility must select and use the lowest price vendor(s) that can provide the required personnel.

- Step 4 - If it is an immediate need requirement – also known as short notice (same day), then an email has to be sent to all vendors listed for the required line item. The first vendor responding that they can fill the requirement is selected.
- Step 5 - Emails must be kept to provide documentation that the contract is being used correctly.

- 3. To assist everyone, a separate spreadsheet for each region is attached. On this spreadsheet the job categories (or line items) are listed. The contracted vendors are listed by their final ranking and their normal working hours email addresses are provided. Some vendors have other email addresses that are used for after hours contact. These addresses are listed in the vendor information section of the NOA.

- 4. There have been questions regarding Section 3.3.1 CONTRACTOR LIABILITY which states

“A. An individual working for a contractor may only work for one contractor at each facility at any one time. This provision is required due to the possibility of having to establish liability. If requested, an employee must produce documentation to support his/her position.”

This section does not prohibit a contracted nurse to change agencies and still be able to work at the same facility. Facilities are reminded that the contract is with a nursing agency and not the individual nurse. So if a nurse switches companies, facilities must then adhere to the contract and ensure they immediately solicit the contractors as stated above and select the lowest contracted vendor.

- 5. Spreadsheets with contractor email addresses. Rankings include payment discount rates.
