Maintenance

Plastic laminates may be cleaned with a damp cloth and ordinary bar soap. Do not use harsh abrasive cleaners.

Wood surfaces may be cleaned with a dry polishing cloth. Abrasive cleaners should never be used. Lemon oil is the only cleaner we recommend. The use of water or water-based cleaners, furniture polish, or abrasive cleaners for cleaning wood surfaces will void our warranty.

Environmental Conditions: The U.S. Forest Products Laboratory, U.S. Department of Agriculture, Report No. 1655, recommends that wood used in interior construction be kiln dried to between 6-8% moisture content (mc), oven dry basis for most geographic locations in the U.S. This moisture content is in equilibrium with a relative humidity (RH) range of 30-43% and with a temperature range of 62-72 degrees Fahrenheit, which is in the range of indoor conditions best suited for human occupancy.

Should conditions be allowed outside these ranges, the wood will either shrink or swell as the environment becomes drier or damper. When this occurs, all wood components of the furniture may develop surface cracks or checks or possibly warp. It is therefore incumbent upon the owner/user to maintain the above indicated temperature and humidity levels where the furniture is stored or used.

Warranty and Provisions

Limited Warranty

The Buckstaff Company warrants, to its original purchaser, all of its furniture to be free from defects in workmanship and materials for a ten (10) year period following the date of the first shipment. If The Buckstaff Company, after its investigation, determines that any defects resulting from the aforesaid causes manifest themselves, then The Buckstaff Company, at its option, will either satisfactorily repair those defects or replace the particular item at no cost to the original purchaser. The original purchaser shall incur all freight charges associated with the return of the warranted item after the first year.

This warranty applies under conditions of normal use but does not apply to defects which result from negligence (e.g., improper care), misuse or accidents, or modifications performed by those other than The Buckstaff Company. Please refer to the furniture maintenance paragraph for care of our product on page 5.

Upholstery, hardware and all other items not manufactured by The Buckstaff Company are herein specifically excluded as to expressed or implied warranties. (Remedies for such items may be available from the original manufacturer.)

The Buckstaff Company does not warrant products manufactured to the specifications of others as to its fitness for particular purpose and use.

Since end checking and warpage are a natural phenomenon of wood with changing temperature and humidity conditions, as well as exposure to water, Buckstaff products cannot be warranted against these circumstances.

No warranty, expressed or implied other than herein stated, is made by The Buckstaff Company.

Any defects should be reported to The Buckstaff Company. If a repair or an adjustment is called for, The Buckstaff Company will make all necessary arrangements.

Provisions of Sale

In the event you refuse to make advance payment when requested by us, we reserve the right to refuse shipment. All federal and local or state taxes assessed after date of order acceptance will be added to the prices.

Minimum Orders: There is a minimum charge of \$50.00 net on all component part orders. There is a minimum charge of \$200.00 net on all other orders.

Prepaid Shipping Charges: We will be happy to make drop shipments to your customers when you request; however, if you wish to have shipping charges prepaid for this or any other type of shipment, we shall specify on the bill-of-lading that the freight bill should be sent directly to you for payment.
