INTERNATIONAL VOICE

The following sections provide pricing information for our World Connect and World Traveler options. These programs provide additional subscription-based discounting to our standard international calling and roaming rates, respectively.

Please reference Attachment to Schedule A for additional information on these options.

Additionally, these tables also provide our standard international calling and roaming rates for users not subscribing to these service options.

AT&T WORLD CONNECT

AT&T presently provides international calling to over 200 countries. Due to current or potential political, regulatory or other factors, AT&T does not currently support firm, fixed contract pricing for international voice usage. The pricing provided below is submitted for the State's consideration and evaluation; such pricing will remain subject to change.

Please find below the applicable usage rates for AT&T World Connect. This program provides additional subscription-based discounting to our standard international calling rates.

AT&T WORLD TRAVELER

AT&T presently provides international calling to over 200 countries. Due to current or potential political, regulatory or other factors, AT&T does not currently support firm, fixed contract pricing for international voice roaming. The pricing provided below is submitted for the State's consideration and evaluation; such pricing will remain subject to change.

Please find below the applicable usage rates for AT&T World Traveler. This program provides additional subscription-based discounting to our standard international roaming rates.

VALUE ADDED OPTIONS – AT&T MOBILE APPLICATIONS

These Value Added Options, as requested in State RFP section 3.1.3 and proposed herein under the header above (“Additional Options – AT&T Mobile Applications”), are **separate from our standard (or basic) wireless voice and data services** provided elsewhere in this schedule. Given the complexity of these **optional** services, we have submitted for the State’s review additional product collateral along with the terms and conditions that are specific to each application (contained in Exhibit 1-C, “Value Added Options”).

AT&T NETWORK COVERAGE MAP

The map below is illustrative of AT&T's domestic geographic wireless coverage. Additional information can also be found in Exhibit 2, "AT&T Coverage Maps."

DEFINITION OF FEATURES

Three-Way Conferencing: With Three-Way Calling, you can add a third person to your current phone conversation. Regular airtime charges, including long distance and roaming (if applicable) are charged for each call.

AT&T WorldConnect: Subscription plan offering discounted toll rates for international calling.

AT&T WorldTraveler: Subscription plan offering discounted international roaming rates.

Call Forwarding: Allows user to forward incoming wireless calls to another phone number. Airtime charges, plus any applicable long distance and/or roaming charges, are incurred for calls forwarded via the wireless network.

Call Waiting: Lets users receive an incoming call when already engaged in a conversation on his/her mobile device. After a notification, the user can put the first call on hold and answer the second call. The user can also decide not to accept the second

call and it will be routed to voice mail. The user will incur airtime and any application long distance and roaming charges for both calls simultaneously.

Caller ID: Caller ID shows the telephone number of the calling party on the subscriber's device.

Handset Insurance: Provides additional, supplemental coverage and benefit to the manufacturer's warranty for the remediation of device issues including loss or theft, damage or malfunction.

Internet Access: Enables connectivity from the device and attached wireless network to the public internet.

Multimedia Messaging: With Picture and Video Messaging (sometimes referred to as multimedia messaging or MMS), users can send pictures, video, and voice messages to another phone or e-mail address.

Numeric Messaging: Allows users to receive numeric messages (pages).

Picture Phones: Phones equipped with appropriate imaging hardware and software to enable the device user to take digital photographs.

Pooling: For eligible plans, pooling allows the aggregation, and distribution, of available plan minutes to all users associated by a common account.

Push-to-talk: Push-to-Talk (PTT) is a walkie-talkie type service that allows you to instantly reach others by eliminating the dialing and ringing steps in a regular cellular call. PTT calls can be made to one person or to a group of people.

Roadside Assistance: Provides subscribers with 24/7 emergency automotive service including towing, battery jump start, flat tire assistance, out-of-gas delivery, lockout assistance, key replacement and rental car savings.

Rollover®: With eligible service plan, Rollover® minutes allow subscribers to carry over unused minutes from one month to the next. Rollover® minutes are unused, accumulated, Anytime Minutes that roll over from month to month for up to 12 months. Minutes that roll over are not redeemable for cash or credits. Rollover® minutes are used only when other plan minutes have been depleted for the billing cycle.

Text Messaging: Provides users with the ability to send and receive short messages (also called SMS) on his or her phone.

VoiceDial: VoiceDial is an easy and convenient way to enjoy hands-free calling. Users make a call easily by simply saying a name or number.

Voicemail, Basic: Allows callers to record an audio message for later retrieval by the intended recipient. Basic Voicemail allows up to twenty (20) messages to be stored for up to fourteen (14) days per message. Message duration is limited to two minutes.

Additional features includes free message delivery notification, free numeric paging, auto play new messages, date/time playback and group distribution lists.

FEES, CHARGES, AND SURCHARGES

AT&T assesses a Regulatory Cost Recovery Charge to recover the costs of compliance with government imposed regulatory requirements. It may include costs incurred in prior years that are not yet fully recovered. It is not a tax or charge which the government requires AT&T to collect from its customers. This charge is subject to change from time to time as the cost of compliance changes. Currently, this charge is \$0.71.

Please note, however, that taxes and surcharges may also be applied to AT&T wireless service(s) based upon rates determined by federal, state, and local laws. These charges are generally applied to recurring monthly charges, local usage, toll usage, and roaming usage. Actual charges may vary, depending upon the particular tax, taxing authority, and the state, city or county of the using entity. AT&T assesses these charges, where applicable, to recover the costs of compliance with taxation legislation and any government imposed regulatory requirement(s).

SCHEDULE B – WIRELESS PRIORITY SERVICE (WPS)

Wireless Priority Service (Section 3.1.4)

Bidder: AT&T

Plan Type or Plan Name: Wireless Priority Service

Recurring Monthly Charges

(Per Mobile/Cellular Telephone Number): \$0.00 per month, \$0.75 per minute

Describe in detail how this service shall be provided. A preprinted documentation sheet may be attached in lieu of a written description here.

Wireless Priority Service (WPS) from AT&T gives first responders such as fire fighters, the police, the FBI, Homeland Security and the Department of Defense priority access during heavy network traffic. Available nationwide, this service provides priority handling for emergency calls to help them get through without delay. Once your SIM card is registered with WPS, summoning its capabilities is simple. Just dial *272 plus your destination number and your call will be flagged as an urgent communication. Your call will be queued for the next available channel. Please reference Exhibit 1-B, "Proposed Wireless-Specific Provisions," for additional offer information, including terms and conditions.

FEES, CHARGES AND SURCHARGES

AT&T assesses a Regulatory Cost Recovery Charge to recover the costs of compliance with government imposed regulatory requirements. It may include costs incurred in prior years that are not yet fully recovered. It is not a tax or charge which the government requires AT&T to collect from its customers. This charge is subject to change from time to time as the cost of compliance changes. Currently, this charge is \$0.71.

Please note, however, that taxes and surcharges may also be applied to AT&T wireless service(s) based upon rates determined by federal, state, and local laws. These charges are generally applied to recurring monthly charges, local usage, toll usage, and roaming usage. Actual charges may vary, depending upon the particular tax, taxing authority, and the state, city or county of the using entity. AT&T assesses these charges, where applicable, to recover the costs of compliance with taxation legislation and any government imposed regulatory requirement(s).

FEES, CHARGES AND SURCHARGES

AT&T assesses a Regulatory Cost Recovery Charge to recover the costs of compliance with government imposed regulatory requirements. It may include costs incurred in prior years that are not yet fully recovered. It is not a tax or charge which the government requires AT&T to collect from its customers. This charge is subject to change from time to time as the cost of compliance changes. Currently, this charge is \$0.71.

Please note, however, that taxes and surcharges may also be applied to AT&T wireless service(s) based upon rates determined by federal, state, and local laws. These charges are generally applied to recurring monthly charges, local usage, toll usage, and roaming usage. Actual charges may vary, depending upon the particular tax, taxing authority, and the state, city or county of the using entity. AT&T assesses these charges, where applicable, to recover the costs of compliance with taxation legislation and any government imposed regulatory requirement(s).

FEES, CHARGES AND SURCHARGES

AT&T assesses a Regulatory Cost Recovery Charge to recover the costs of compliance with government imposed regulatory requirements. It may include costs incurred in prior years that are not yet fully recovered. It is not a tax or charge which the government requires AT&T to collect from its customers. This charge is subject to change from time to time as the cost of compliance changes. Currently, this charge is \$0.71.

Please note, however, that taxes and surcharges may also be applied to AT&T wireless service(s) based upon rates determined by federal, state, and local laws. These charges are generally applied to recurring monthly charges, local usage, toll usage, and roaming usage. Actual charges may vary, depending upon the particular tax, taxing authority, and the state, city or county of the using entity. AT&T assesses these charges, where applicable, to recover the costs of compliance with taxation legislation and any government imposed regulatory requirement(s).

FEES, CHARGES AND SURCHARGES

AT&T assesses a Regulatory Cost Recovery Charge to recover the costs of compliance with government imposed regulatory requirements. It may include costs incurred in prior years that are not yet fully recovered. It is not a tax or charge which the government requires AT&T to collect from its customers. This charge is subject to change from time to time as the cost of compliance changes. Currently, this charge is \$0.71.

Please note, however, that taxes and surcharges may also be applied to AT&T wireless service(s) based upon rates determined by federal, state, and local laws. These charges are generally applied to recurring monthly charges, local usage, toll usage, and roaming usage. Actual charges may vary, depending upon the particular tax, taxing authority, and the state, city or county of the using entity. AT&T assesses these charges, where applicable, to recover the costs of compliance with taxation legislation and any government imposed regulatory requirement(s).
