Wireless Priority Service	\$0.00	\$0.00	\$0.00	\$0.75 per minute

SCHEDULE B - WIRELESS PRIORITY SERVICE (WPS)

12-X-22315 Wireless Devices & Services

Wireless Priority Service (Section 3.1.4)

Bidder: Cellco Partnership d/b/a Verizon WirelessPlan Type or name: Wireless Priority Service

Recurring Monthly Charges

(Per Mobile/Cellular Telephone Number): \$10.00 one time activation fee waived, \$4.50 monthly feature charge waived, \$0.75 per minute rate

Note: WPS Minutes will not deduct from any plan allowances. Inter Carrier roaming with other WPS carriers is supported with certain carriers only [Sprint].

Describe in detail how this service shall be provided. A preprinted documentation sheet may be attached in lieu of a written description here.

Verizon Wireless has worked closely with the National Communications System (NCS) of the Department of Homeland Security to develop national Wireless Priority Service (WPS) on the Verizon Wireless Code Division Multiple Access (CDMA) voice network. WPS is a federal program, administered by the National Communications System (NCS) within the Department of Homeland Security (DHS) that will provide the benefit of priority network access for qualified government and industry subscribers that must have communications capabilities in times of national security and emergency preparedness.

WPS service has been deployed on the entire Verizon Wireless network across the United States. WPS is supported for voice calls and circuit-switched data calls. Secure devices, such as QSEC and General Dynamics Sectera Edge, use circuit-switched data for their encrypted call communications. WPS does not support packet data services available on Verizon Wireless' data network.

Using Wireless Priority Service

During times of emergency, WPS will give authorized emergency service personnel – including federal, state and local government officials, law enforcement agencies and designated private sector responders – priority in placing calls. While priority calls do not preempt calls in progress, WPS will allow authorized users to gain priority access to the next available wireless channel, thereby increasing their probability of call completion during an emergency. Calls placed by individuals without priority access will still be given access to the network.

Once WPS is activated, registered users simply dial *272 before dialing the 10-digit telephone number. The call will automatically be placed in high-priority status and will be given priority for the next available wireless channel at the originating radio access network. Additionally, priority is provided on the Verizon Wireless switching, interoffice facilities and interconnections to Local Exchange Carriers (LECs) and InterExchange Carriers (IECs). A WPS call will be provided with Government Emergency Telecommunications Service (GETS) priority when routed through these exchange carriers. Call priority will be maintained on the terminating portion of the call throughout

the wireless and wireline networks, regardless of whether the call was originated via GETS (landline) or WPS.

How to Sign Up for WPS

To take advantage of WPS on the Verizon Wireless network, authorized National Security and Emergency Preparedness (NS/EP) users must first apply to the NCS to receive this service. Once NCS confirms eligibility, the NCS will then notify Verizon Wireless that the official has been approved for WPS and that the service can be

added to the user's account. Users may also contact their Verizon Wireless Account Manager or the WPS Activation and Support department at 877-262-2950 for further information.

Additional information regarding the WPS program can be obtained by visiting the NCS website.

Bidder shall provide a separate sheet for each plan submitted.
Bidder's name shall be provided on all additional sheets.

Any additional/associated charges not identified will not be paid by the State.

Verizon Wireless Response: Noted and understood.

SCHEDULE C - HANDHELD WIRELESS DEVICES

12-X-22315 Wireless Devices & Services

Handheld Wireless Phones (Section 3.1.5.1)

Bidder: Cellco Partnership d/b/a Verizon Wireless

Category Price Range	Manufacturer	Model	Cost
FREE basic phone	Samsung	Brightside	\$0.00
	Samsung	Gusto	\$0.00
	LG	Cosmos 2	\$0.00
