## **Independent Auditors' Report**

The Commission  
State of New Jersey  
Prison Officers' Pension Fund:

We have audited the accompanying statements of fiduciary net assets of the State of New Jersey Prison Officers' Pension Fund (the Fund) as of June 30, 2009 and 2008, and the related statements of changes in fiduciary net assets for the years then ended. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the State of New Jersey Prison Officers' Pension Fund as of June 30, 2009 and 2008, and the changes in its financial position for the years then ended in conformity with U.S. generally accepted accounting principles.

As discussed in note 1 to the financial statements, the Fund adopted Governmental Accounting Standards Board (GASB) Statement No. 50, *Pension Disclosures* in 2008.

Management's Discussion and Analysis and the supplementary information included in the schedule of funding progress and schedule of employer contributions (schedules 1 and 2) are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Fund's basic financial statements. The 2009 schedule of changes in fiduciary net assets by fund (schedule 3) is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Fund. Such information has been subjected to the auditing procedures applied in the audit of the 2009 basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2009 basic financial statements taken as a whole.

Management's Discussion and Analysis

June 30, 2009 and 2008

Our discussion and analysis of the financial performance of the Prison Officers' Pension Fund (the Fund) provides an overview of the Fund's financial activities for the fiscal years ended June 30, 2009 and 2008. Please read it in conjunction with the basic financial statements and financial statement footnotes, which follow this discussion.

**Financial Highlights**

**2009 - 2008**

- Net assets held in trust for pension benefits decreased by \$903,521 as a result of fiscal year 2009's operations from \$12,890,441 to \$11,986,920.
- Additions for the year are \$1,286,442, which are comprised of net investment income of \$197,755 and contributions for pension adjustment benefits of \$1,088,687.
- Deductions for the year are \$2,189,963, which are comprised of benefit payments of \$2,181,622 and administrative expenses of \$8,341.

**2008 - 2007**

- Net assets held in trust for pension benefits decreased by \$608,920 as a result of fiscal year 2008's operations from \$13,499,361 to \$12,890,441.
- Additions for the year are \$1,650,523, which are comprised of net investment income of \$546,188 and contributions for pension adjustment benefits of \$1,104,335.
- Deductions for the year are \$2,259,443, which are comprised of benefit payments of \$2,250,040 and administrative expenses of \$9,403.

**The Statements of Fiduciary Net Assets and the Statements of Changes in Fiduciary Net Assets**

This annual report consists of two financial statements: *The Statements of Fiduciary Net Assets* and *The Statements of Changes in Fiduciary Net Assets*. These financial statements report information about the Fund and about its activities to help you assess whether the Fund, as a whole, has improved or declined as a result of the year's activities. The financial statements were prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the period they are earned, and expenses are recorded in the year they are incurred, regardless of when cash is received or paid.

*The Statements of Fiduciary Net Assets* show the balances in all of the assets and liabilities of the Fund at the end of the fiscal year. The difference between assets and liabilities represents the Fund's fiduciary net assets. Over time, increases or decreases in the Fund's fiduciary net assets provide one indication of whether the financial health of the Fund is improving or declining. *The Statements of Changes in Fiduciary Net Assets* show the results of financial operations for the year. The statements provide an explanation for the change in the Fund's fiduciary net assets since the prior year. These two financial statements should be reviewed along with the information contained in the financial statement footnotes, including the required supplementary schedules, to determine whether the Fund is becoming financially stronger or weaker.

Change in net assets	<u>\$ (903,521)</u>	<u>(608,920)</u>	<u>(294,601)</u>

Additions consist of contributions from the Pension Adjustment Fund to cover cost-of-living benefits and earnings from investment activities. Contributions decreased slightly compared to the prior year by 1.4%. Investment earnings decreased by \$0.3 million or 63.8% due to the decline in the net appreciation in the fair value of investments and less income earned on these investments.

Fiscal year 2009 is the twelfth consecutive year that the State has not made a contribution to the Fund. As of July 1, 2008, the date of the most recent actuarial valuation, the actuarial value of the Fund's assets exceeds the projected value of accrued liabilities by \$6.1 million.

Deductions are comprised of pension benefit payments to retirees and beneficiaries and administrative costs incurred by the Fund. Benefit payments decreased by 3.0% due to fewer retirees and beneficiaries. Administrative costs decreased by 11.3%.

Management's Discussion and Analysis

June 30, 2009 and 2008

Additions consist of contributions from the Pension Adjustment Fund to cover cost-of-living benefits and earnings from investment activities. Contributions decreased slightly compared to the prior year by 3.0%. Investment earnings decreased by \$0.2 million or 23.3% due to the decline in the net appreciation in the fair value of investments and less income earned on these investments.

Fiscal year 2008 is the eleventh consecutive year that the State has not made a contribution to the Fund. As of July 1, 2007, the date of the most recent actuarial valuation, the actuarial value of the Fund's assets exceeds the projected value of accrued liabilities by \$6.1 million.

Deductions are comprised of pension benefit payments to retirees and beneficiaries and administrative costs incurred by the Fund. Benefit payments decreased by \$0.1 million or 4.5% due to fewer retirees and beneficiaries. Administrative costs slightly increased by 1.1%.

**Retirement System as a Whole**

The overall funded ratios of 189.9% for fiscal year 2009 and 183.0% for fiscal year 2008 indicate that the Fund has sufficient assets to meet its benefit obligations.

**Contacting System Financial Management**

The financial report is designed to provide our members, beneficiaries, investors and other interested parties with a general overview of the Fund's finances and to show the Fund's accountability for the money it receives. PRISON OFFICERS' PENSION FUND**

Notes to Financial Statements

June 30, 2009 and 2008

**(1) Description of the Fund**

The Prison Officers' Pension Fund of New Jersey (the Fund; POPF) is a single-employer contributory defined benefit plan which was established as of January 1, 1941, under the provisions of N.J.S.A. 43:7 and closed to new members in January 1960. The Fund is included along with other state-administered pension trust and agency funds in the basic financial statements of the State of New Jersey.

The Fund's designated purpose is to provide retirement, death and disability benefits to its members. Membership in the Fund is limited to various employees in the state penal institutions who were appointed prior to January 1, 1960. There are no active members and 167 pensioners and beneficiaries are receiving benefits as of June 30, 2008, the date of the most recent actuarial valuation. As of June 30, 2007, there were no active members and 176 pensioners and beneficiaries receiving benefits. The Fund's Board of Trustees is primarily responsible for its administration.

According to State of New Jersey Administrative Code, all obligations of the Fund will be assumed by the State of New Jersey should the Fund terminate.

In 2008, the Fund adopted the provisions of GASB Statement No. 50, "*Pension Disclosures.*"

***Vesting and Benefit Provisions***

The vesting and benefit provisions are set by N.J.S.A. 43:7. The POPF provides retirement, as well as death and disability benefits. Retirement benefits are available after 25 years of service or at age 55 with 20 years of service. The benefit is in the form of a life annuity equal to the greater of (a) 2% of average final compensation up to the 30 years of service, plus 1% of average final compensation for each year of service above 30 and prior to age 65; (b) 50% of final pay; or (c) for members with 25 or more years of service, 2% of average final compensation for each year of service up to 30 years, plus 1% for each year in excess of 30 years. Average final compensation equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members are always fully vested for their own contributions.

**(2) Summary of Significant Accounting Policies**

***Measurement Focus and Basis of Accounting***

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Fund is accounted for using an economic resources measurement focus.

The accrual basis of accounting is used for measuring financial position and changes in fiduciary net assets of the Fund. Under this method, revenues are recorded in the accounting period in which they are earned, and deductions are recorded at the time the liabilities are incurred. The financial statements of the Fund conform to the provisions of Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefit Plans and note Disclosures for Defined Contributions Plans*. Employer contributions are recognized when payable to the Fund. Benefits and refunds are recognized when due and payable in accordance with the terms of the Fund.

Notes to Financial Statements

June 30, 2009 and 2008

***Investments***

The Division of Investment, Department of the Treasury, State of New Jersey (Division of Investment) manages and invests certain assets of seven of the defined benefit plans (PERS, TPAF, JRS, PFRS, CPFPF, SPRS and POPF). The Division of Investment separately reports the assets, liabilities and net assets of the underlying investment portfolio of the seven defined benefit plans (the Pension Funds) in its Pension Fund report.

Investments are reported at fair value as follows:

- Cash Management Fund – closing bid price on the last day of trading during the period as determined by the Transfer Agent.
- Mortgages – priced by a major dealer in such securities and reviewed by management for reasonableness.

Investment transactions are accounted for on a trade or investment date basis. Gains and losses from investment transactions are determined by the average cost method. Interest and dividend income is recorded on the accrual basis, with dividends accruing on the ex dividend date.

The net asset value of Common Funds A, B, D and E (Common Funds) is determined as of the close of the last day of business of each month. Purchases and redemptions of participants' units are transacted each month within fifteen days subsequent to that time and are recorded at such net asset value.

Dividends and interest earned per unit are calculated monthly and distributed quarterly for Common Fund A and B. Dividends and interest earned per unit are calculated monthly for Common Fund D, and the income earned on Common Fund D units is reinvested. Income earned per unit is calculated monthly for Common Fund E, and the income earned on Common Fund E units is reinvested.

***Administrative Expenses***

The Fund is administered by the State of New Jersey Division of Pensions and Benefits. Administrative expenses are paid by the Fund to the State of New Jersey, Department of the Treasury, and are included in the accompanying financial statements.

***Use of Estimates***

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

(Continued)

**STATE OF NEW JERSEY  
PRISON OFFICERS' PENSION FUND**

Notes to Financial Statements

June 30, 2009 and 2008

***Funded Status and Funding Progress***

The required supplementary information regarding the funded status and funding progress is based on actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

The required schedule of funding progress presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under State statutes in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at that point in time. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

***Actuarial Methods and Assumptions***

In the June 30, 2008 and 2007 actuarial valuations, the projected unit credit was used as the actuarial cost method, and market value was used as the asset valuation method for the Fund. The actuarial assumptions included 5% for investment rate of return.

New Jersey state statute provides for a State Investment Council (Council) and a Director. Investment authority is vested in the Director of the Division of Investment and the role of the Council is to formulate investment policies. The Council issues regulations which establish guidelines for permissible investments which include domestic and international equities and exchange traded funds, covered call and put options, equity futures contracts, obligations of the U.S. Treasury, government agencies, corporations, international governments and agencies, bank loans, interest rate swap transactions, credit default swaps, fixed income exchange traded funds, U.S. Treasury futures contracts, New Jersey State and Municipal general obligations, public authority revenue obligations, collateralized notes and mortgages, commercial paper, certificates of deposit, repurchase agreements, bankers acceptances, guaranteed income contracts, funding agreements, money market funds, private equity funds, real estate funds, other real assets, absolute return strategy funds, and the State of New Jersey Cash Management Fund (CMF). The CMF is a short-term cash fund and is open to state and certain nonstate participants.

Notes to Financial Statements

June 30, 2009 and 2008

The Pension Funds' investment in the Cash Management Fund is not evidenced by securities that exist in physical or book entry form held by the Pension Funds.

The Fund's investments are subject to various risks. Among these risks are custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. Each one of these risks is discussed in more detail below.

Custodial credit risk, as it relates to investments, is the risk that in the event of a bank failure, the Pension Funds will not be able to recover the value of investments or collateral securities that are in the possession of the third party. The Pension Funds' investment securities are not exposed to custodial credit risk as they are held in segregated trust accounts in the name of the Pension Funds with the custodians.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of issuers and debt instruments is evaluated by nationally recognized statistical rating agencies such as Moody's Investors Service, Inc. (Moody's), Standard & Poor's Corporation (S&P), and Fitch Ratings (Fitch). Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. There are no restrictions in the amount that can be invested in United States treasury and government agency obligations. Council regulations require minimum credit ratings for certain categories of fixed income obligations held directly by the Pension Funds and limit the amount that can be invested in any one issuer or issue.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The Pension Funds invest in global markets. Effective August 20, 2007, the market value of international preferred and common stocks and issues convertible into common stocks, when combined with the market value of international government and agency obligations, cannot exceed 30% of the market value of the Pension Funds; previously, this limitation was 22%. The market value of emerging market securities cannot exceed more than 1.5 times the percentage derived by dividing the total market capitalization of companies included in the Morgan Stanley Capital International (MSCI) Emerging Market Index by the total market capitalization of the companies included in the MSCI All-Country World Ex-United States Index of the total market value of the assets held by Common Fund D. Not more than 10% of the market value of the emerging market securities can be invested in the common and preferred stock of any one corporation; the total amount of stock purchased of any one corporation cannot exceed 5% of its stock classes eligible to vote. Council regulations permit the Pension Funds to enter into foreign exchange contracts for the purpose of hedging the international portfolio. The Pension Funds held forward contract receivables totaling approximately \$4.9 billion and payables totaling approximately \$4.7 billion

The Pension Funds' interests in alternative investments may contain elements of credit, currency and market risk. Such risks include, but are not limited to, limited liquidity, absence of regulatory oversight, dependence upon key individuals, speculative investments (both derivatives and nonmarketable investments), and nondisclosure of portfolio composition. Effective August 18, 2008, Council regulations provide that not more than 28% of the market value of the Pension Funds can be invested in alternative

investments, with the individual categories of real estate, real assets, private equity and absolute return strategy investments limited to 7%. Prior to that, the overall limitation was 18%. Not more than 5% of the market value of Common Fund E, plus outstanding commitments, may be committed to any one partnership or investment, without the prior written approval of the Council. The investments in Common Fund E cannot comprise more than 20% of any one investment manager's total assets.

**(4) Contributions**

There are no active members in the POPF. Accordingly, based on actuarial valuations, there are no normal cost or accrued liability contributions required by employers for fiscal years 2009 and 2008.

**(5) Funds**

POPF maintains the following legally required fund as follows:

***Retirement Reserve Fund (2009 – \$11,986,920; 2008 – \$12,890,441)***

The Retirement Reserve Fund is credited with active member and State of New Jersey contributions and investment income. In addition, all benefits are paid from this account.
