

This step-by-step guide will assist active Police and Firemen Retirement System (PFRS) members with running a retirement estimate.

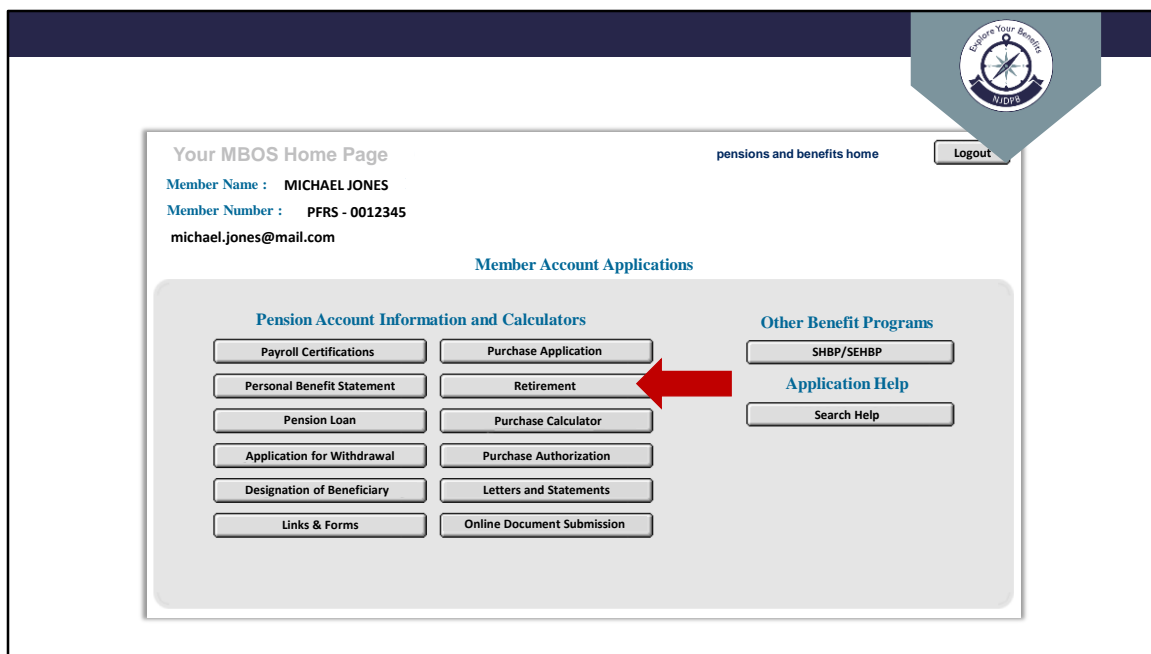

Active pension members can use the Member Benefits Online System (MBOS) to run a retirement estimate using a retirement date up to two years into the future.

Authorized users can register for an MBOS account here:

<https://www.nj.gov/treasury/pensions/mbos-register.shtml>

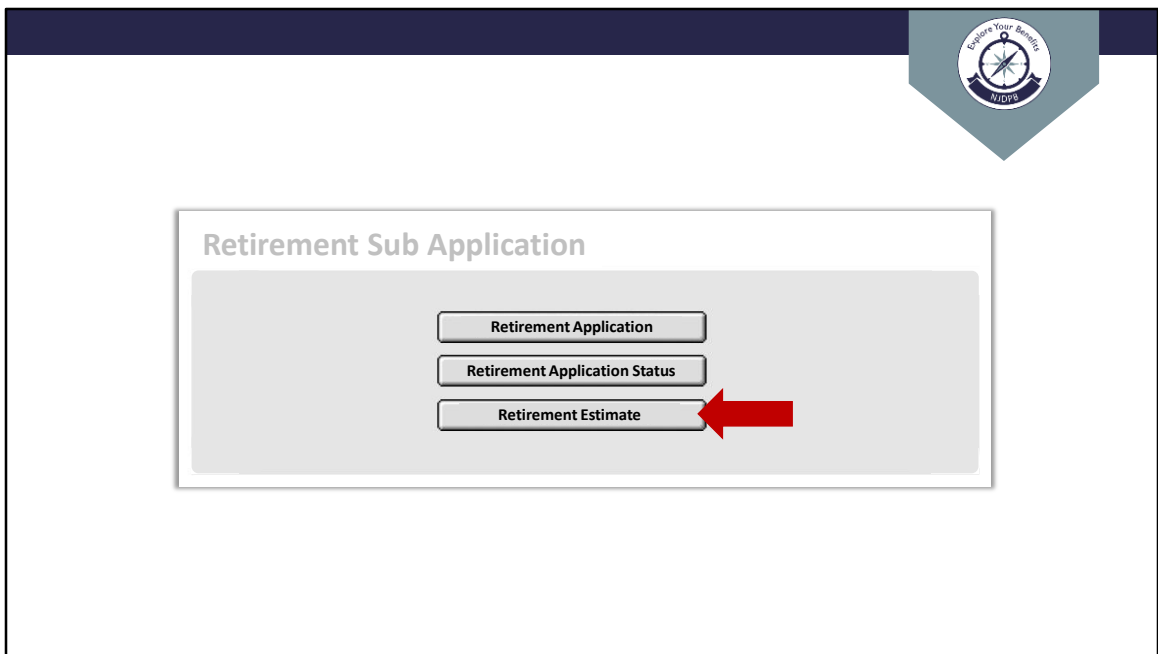

For assistance with the registration process, see the *Active MBOS Registration* video in our video gallery: <https://www.nj.gov/treasury/pensions/videos.shtml>

Please note, if you have already registered for MBOS, you will not be able to register again. If you need assistance accessing your existing MBOS account, please see our MBOS Troubleshooting videos in our video gallery.

Once you have accessed your MBOS account, click the “Retirement” button to navigate to the retirement calculator.

To exit the retirement calculator at any time, click the “Home” button located at the top of your MBOS screen.

Next, click the “Retirement Estimate” button.

Your name, membership number and date of birth are prepopulated at the top of the calculator.

Select your retirement type from the drop down menu.

Then, enter the month and year of your proposed retirement date (up to two years into the future). Please note that all retirement dates are always the first of the month.

Next, provide your termination date (the last date you will be on payroll and make a pension contribution). This date cannot be the same date as your retirement date and must be at least the day before the retirement date.

If you would like to run a retirement estimate using a date that is more than two years into the future, please see our Long-Range Retirement Calculators on our public website.
